

Author: Joel Kristenson

Last Updated: 2014-12-01

Overview

This article will walk you through the steps to put your **Trail Blazer** donation form ([iFrame](#)) on your Facebook Page using a free app called [Woobox Custom Tab iFrame Host](#). It requires that you have your own personal Facebook account that has admin access to your organization's [Facebook Page](#).

The article is broken into pieces that cover the installation of this app on your Facebook Page, creating a source attribute to track donations coming in specifically via Facebook, and how to generate and insert your iFrame code in the Donation tab.

 **Tip:** Use the **Ctrl+F** hot key combination to jump to different sections of this article (example: “#1”, “#2” or “**Related Resources**”).

Outline

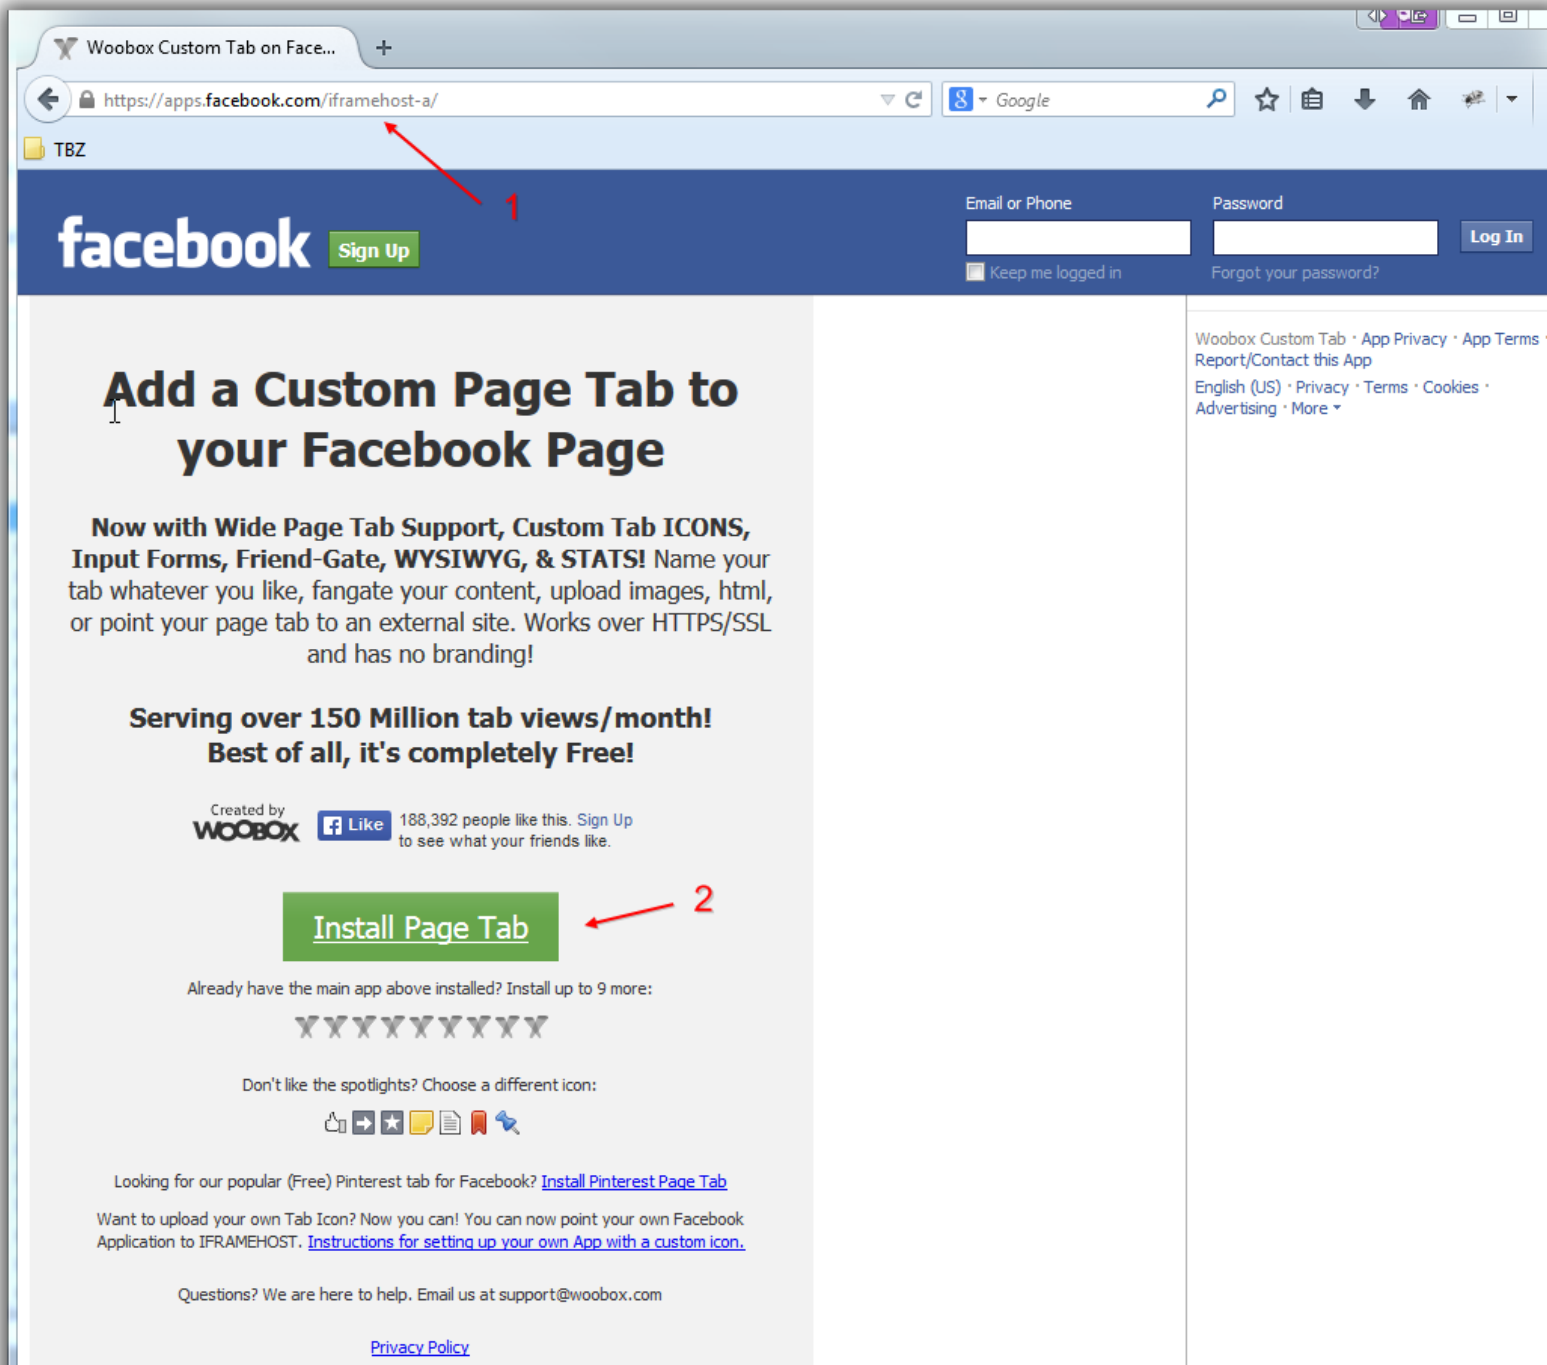

- #1 Installing the Woobox App on your Facebook Page
- #2 Create a Source Attribute to Track Donations Coming in via Facebook
- #3 How to Generate the Donation Form iFrame Code and Insert it into the Woobox App Tab
- #4 Related Resources

#1 Installing the Woobox App on your Facebook Page

**This article was written as if I'm not currently logged into Facebook, if you're already logged in the screenshots and steps may vary slightly.*

Follow this link to the Woobox App page on Facebook <<<https://apps.facebook.com/iframehost-a/>>>.

Click the **[Install Page Tab]** button.

[Privacy Policy](#)

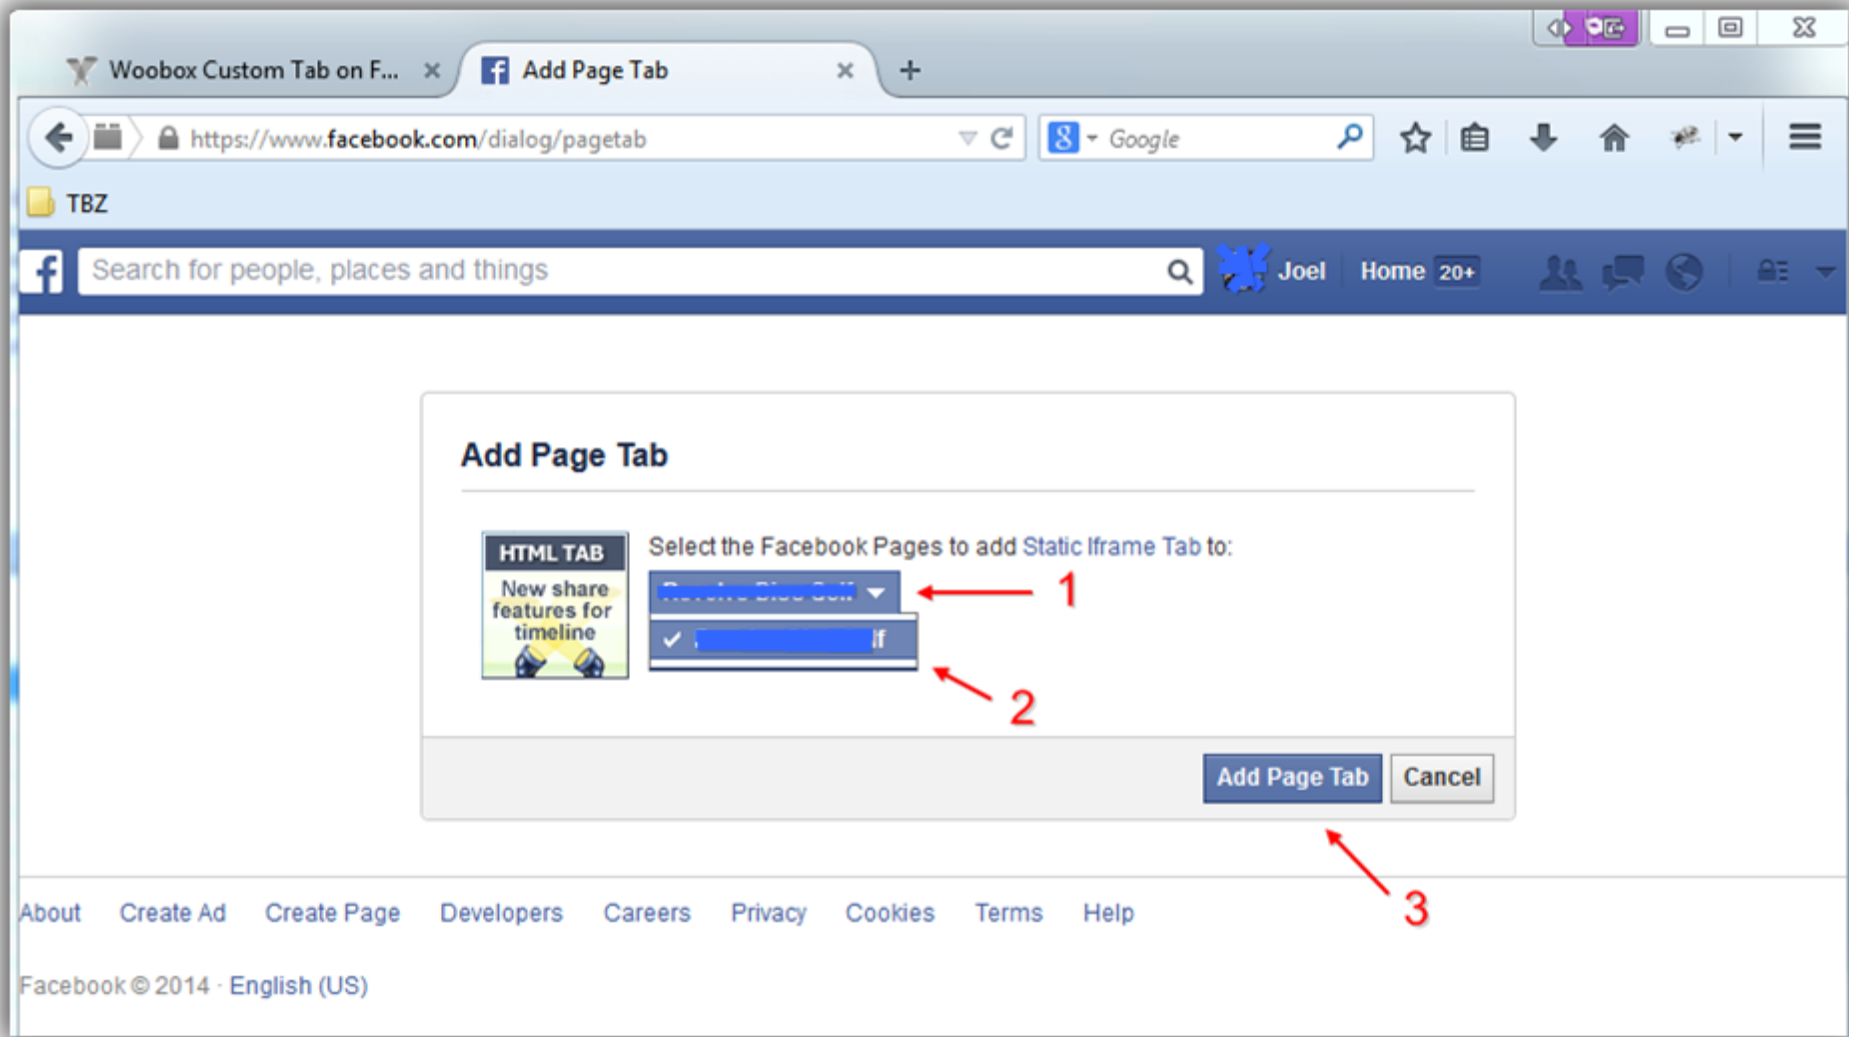

This will open a new tab asking you to log into your personal Facebook account. **If you're already logged into your Facebook account you'll bypass this prompt.*

Enter your credentials and click **[Log In]**.

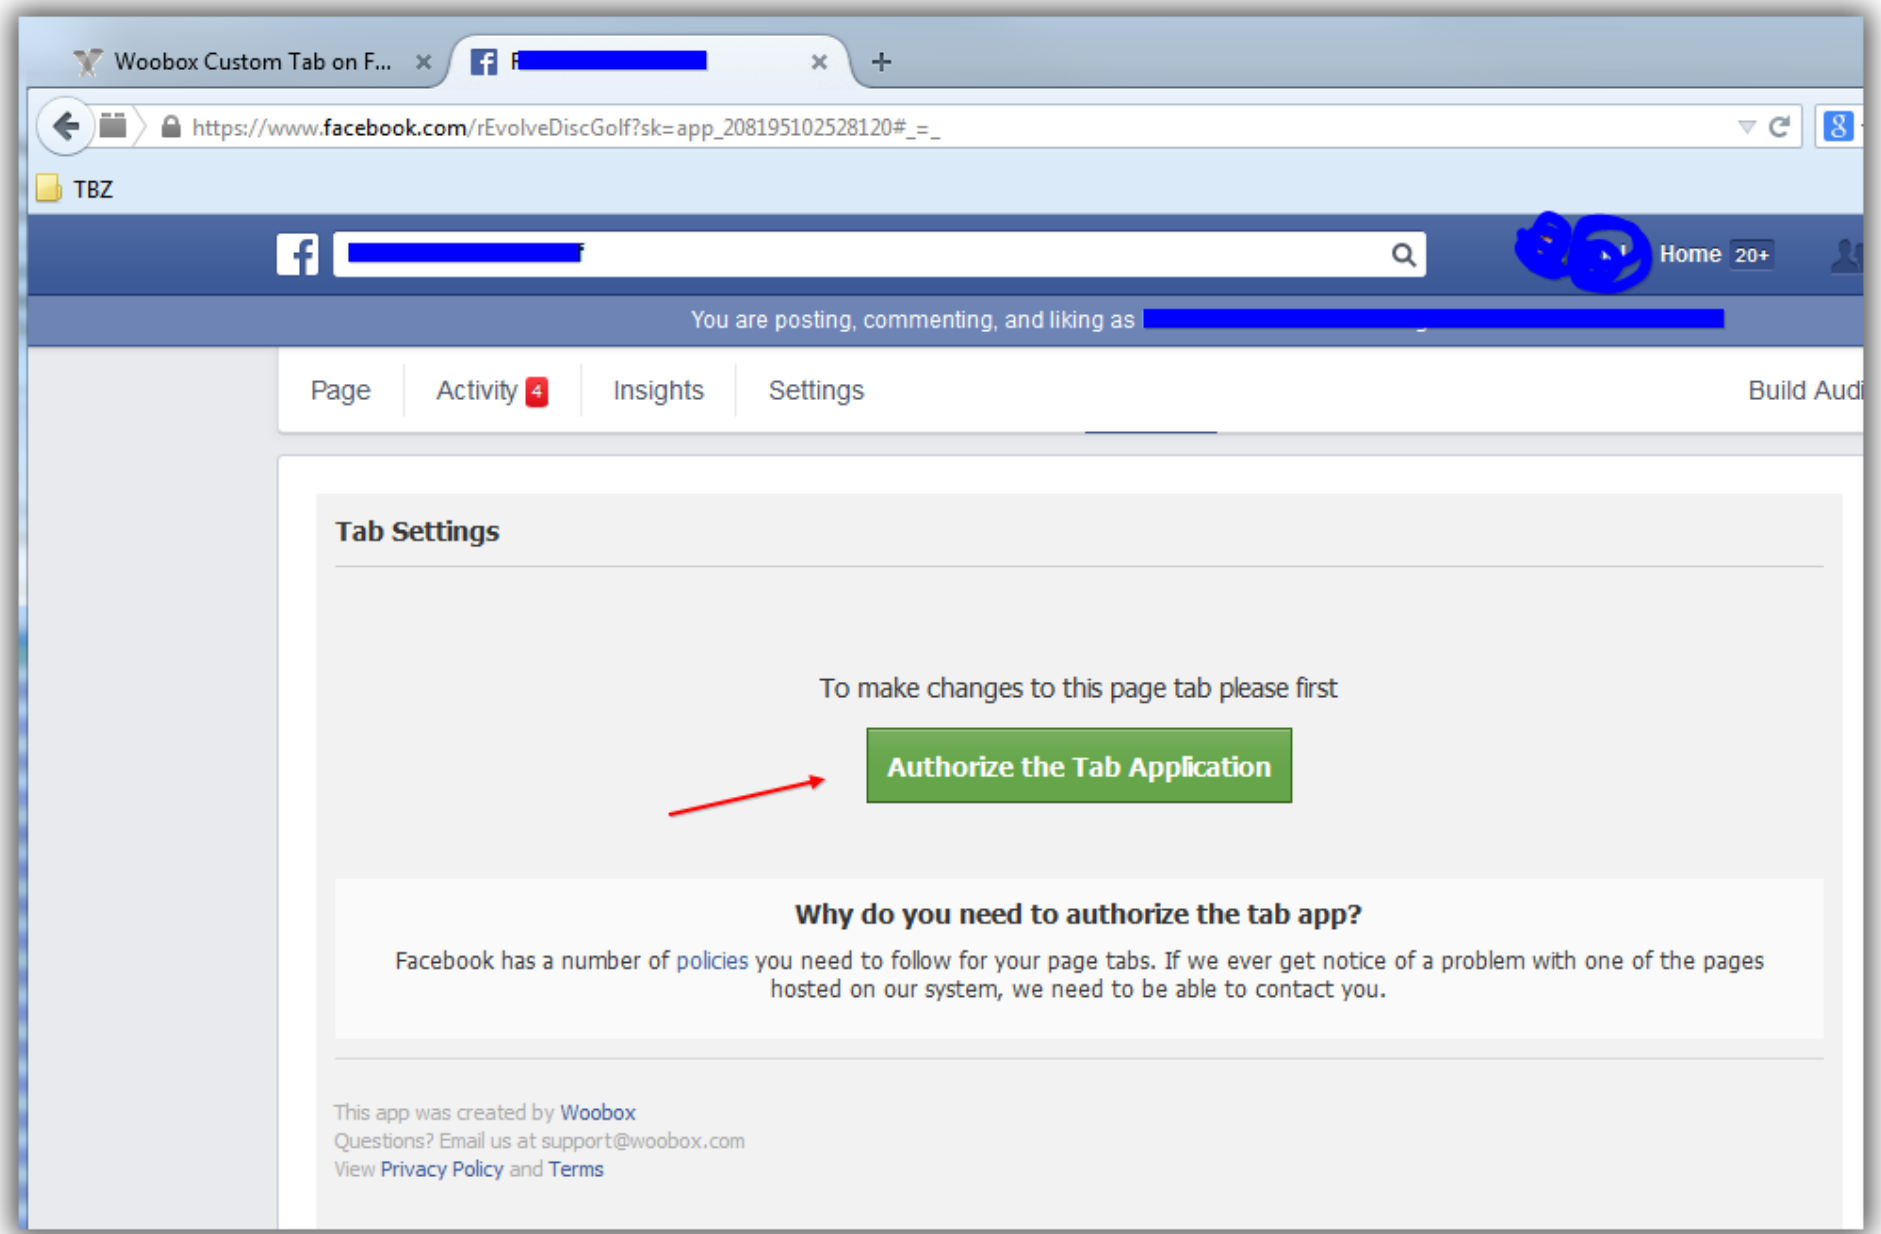

After you log in you will be prompted with a screen asking you what Facebook Page you want to add the **Woobox Page Tab** to.

Click the drop-down, select the page you want to add it to, and click **[Add Page Tab]**.

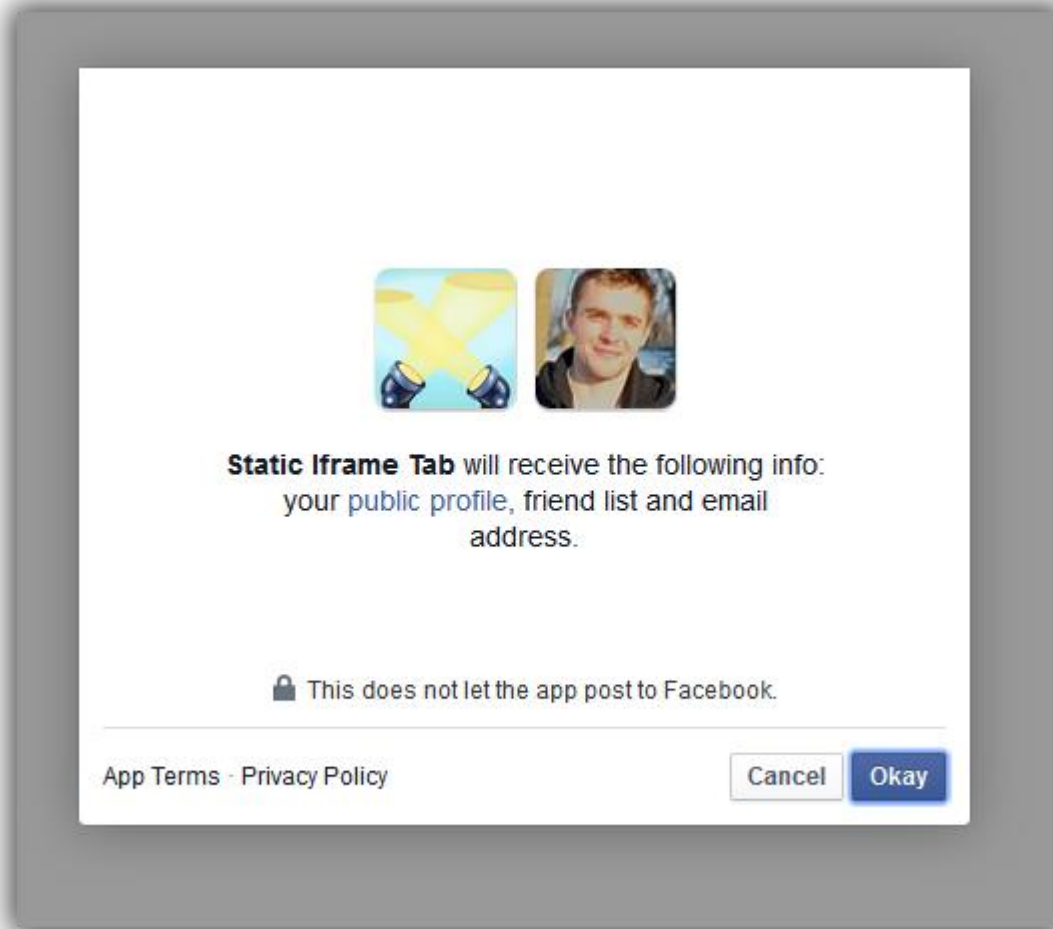

Click the green **[Authorize the Tab Application]** button.

You'll be prompted with a warning that the **Static Iframe Tab** will have access to some of your Facebook information.

Click **[Okay]** to proceed.

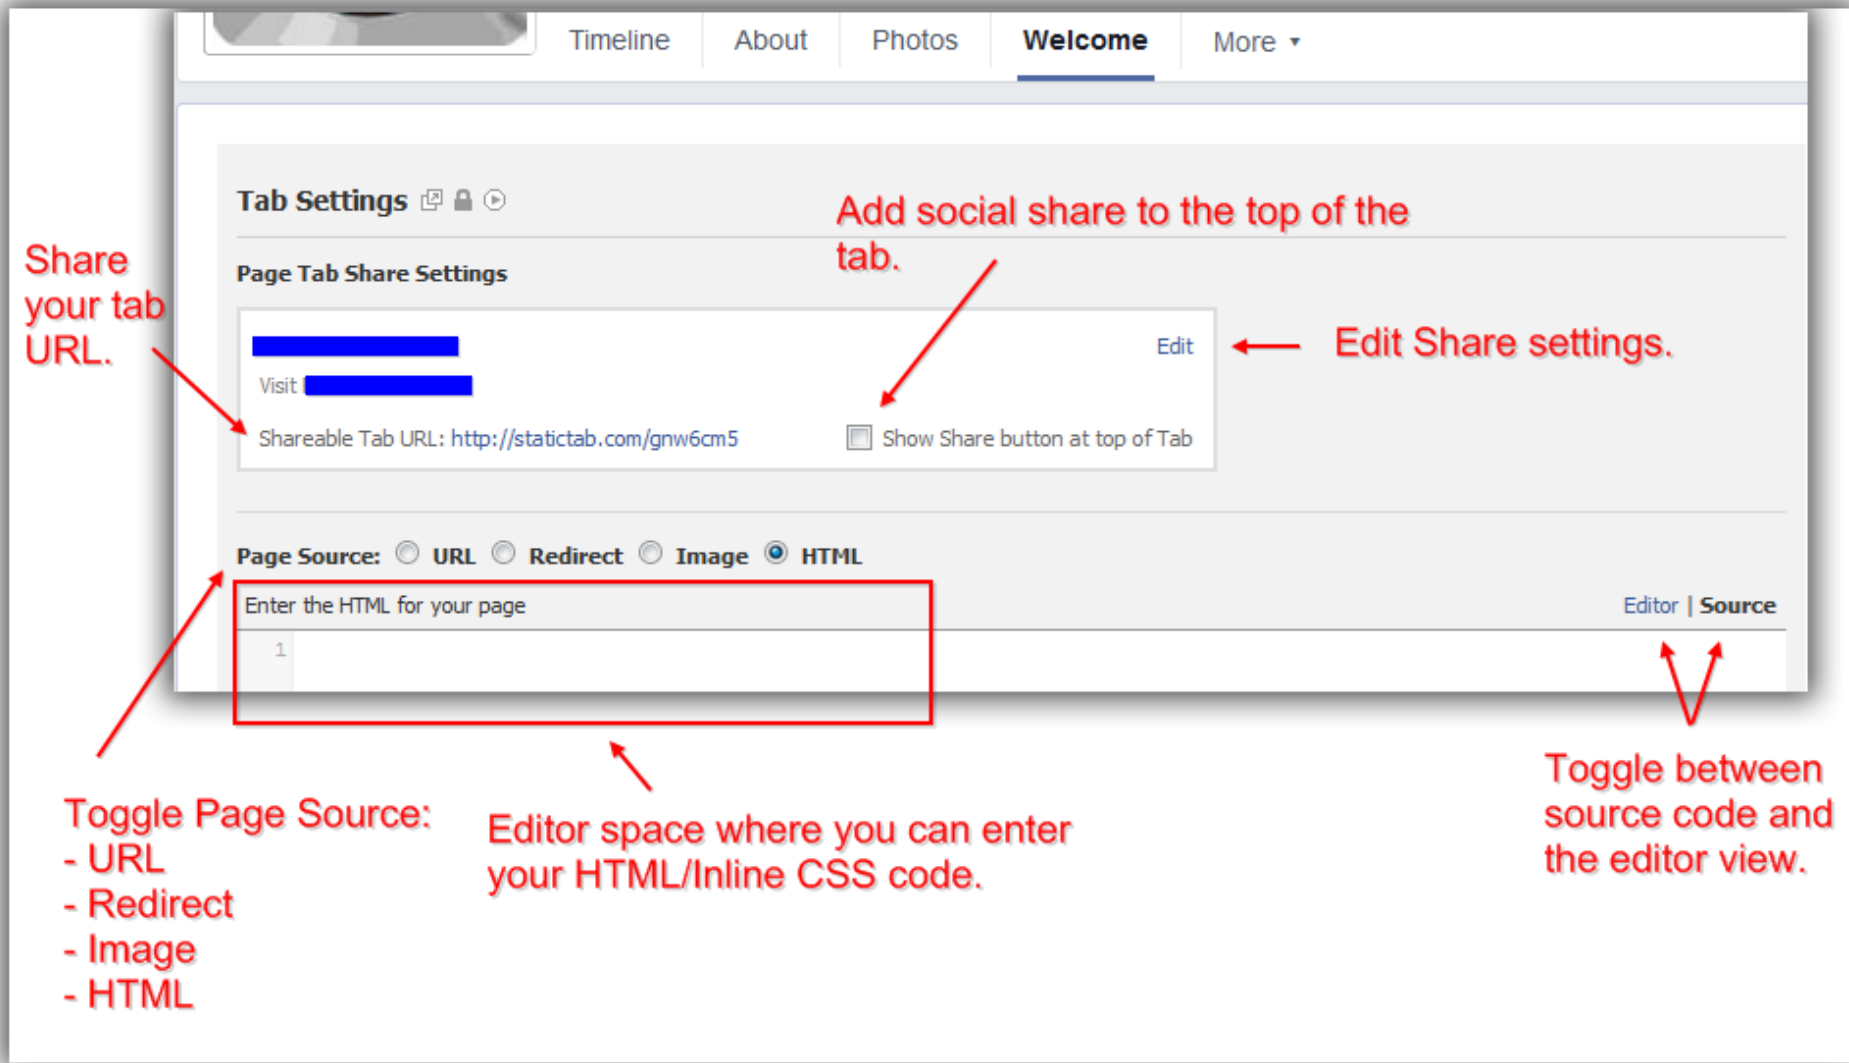

This will bring you into the Facebook Page that you selected earlier. It will bring up the **Welcome** tab by default where you can begin your configurations.

The two images below display what this tab will look like by default, they have descriptions about all the different settings, which are covered more thoroughly in section **#3**.

Image 1 of 2 – Default Welcome Tab

By default this tab will be called "Welcome", but you can change it to "Donate" or anything else you would like.

The screenshot shows the Facebook Page Tab Settings interface. At the top, navigation tabs include 'Timeline', 'About', 'Photos', 'Welcome', and 'More'. Below this is the 'Tab Settings' section, which includes 'Page Tab Share Settings' and 'Page Source' options.

Annotations:

- Share your tab URL.** Points to the 'Shareable Tab URL' field, which contains 'http://statictab.com/gnw6cm5'.
- Add social share to the top of the tab.** Points to the 'Show Share button at top of Tab' checkbox, which is currently unchecked.
- Edit Share settings.** Points to the 'Edit' button next to the share settings.
- Toggle Page Source:** Points to the radio button selection for 'HTML' (selected), with a list of options: - URL, - Redirect, - Image, - HTML.
- Editor space where you can enter your HTML/Inline CSS code.** Points to the text area labeled 'Enter the HTML for your page'.
- Toggle between source code and the editor view.** Points to the 'Editor | Source' toggle at the bottom right of the editor area.

Image 2 of 2 – Default Welcome Tab

HTML source editor.

Fan-Gate (Non-Fan Page Source): Off URL Image HTML

Fan-gating is turned off. Fans and Non-fans will see your tab content.

Keep Fan-Gate off unless you want to require people like your page before viewing your custom tab.

Friend-Gate: Off Default HTML

Friend-gate is turned off. Visitor's friends do not need to be fans to access your content.

Keep Friend-Gate off.

Form-Gate: Off HTML

Form-gate is turned off. Visitors do not complete an input form to access your content.

Keep Form-Gate off.

Tab Icon: [Instructions for using your own tab icon.](#)

Advanced settings for a custom tab icon.

Tab Name:

Tab Image: [Change Tab Image \(111px wide by 74px tall\)](#)

Change to "Donate" or anything else you would like.

Install Another Tab:       

*Optional tabs to install.

Add your own custom image (111px wide by 74px tall).

This app was created by [Woobox](#)

WOOBOBOX  188k

SAVE SETTINGS

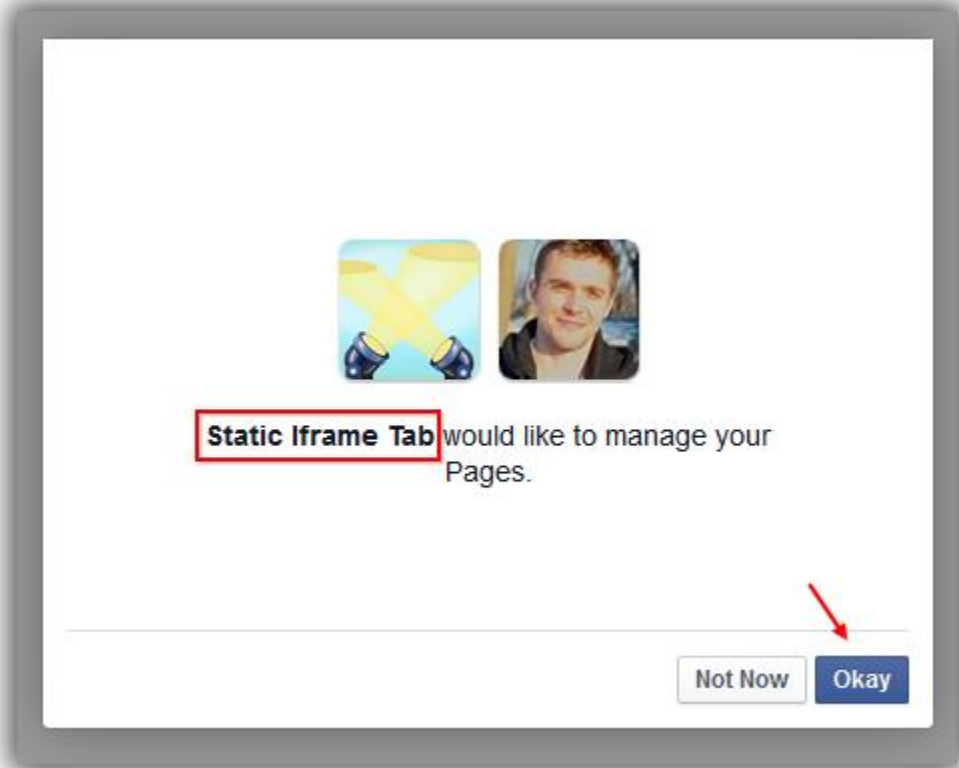

Click **[Save Settings]** and you're done.

You'll likely get a security prompt asking for permission. Click **[Grant Permission to Application]** to continue.

You will likely get one last prompt asking for permission for the **Static Iframe Tab** to manage your Pages.

Click **[Okay]**.

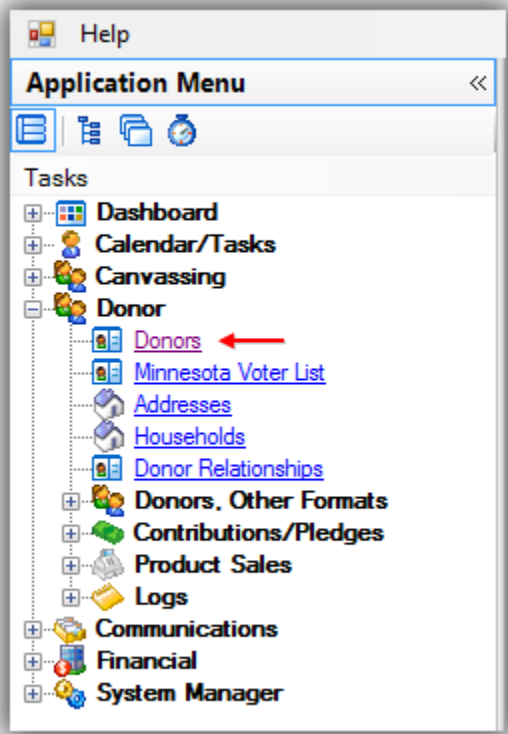

You're now finished installing the Woobox Iframe Tab on your Facebook Page.

The next section delves into creating a source attribute to track donations coming in through your Facebook page. The final section will show you how to generate the iFrame code and past it into the Woobox app.

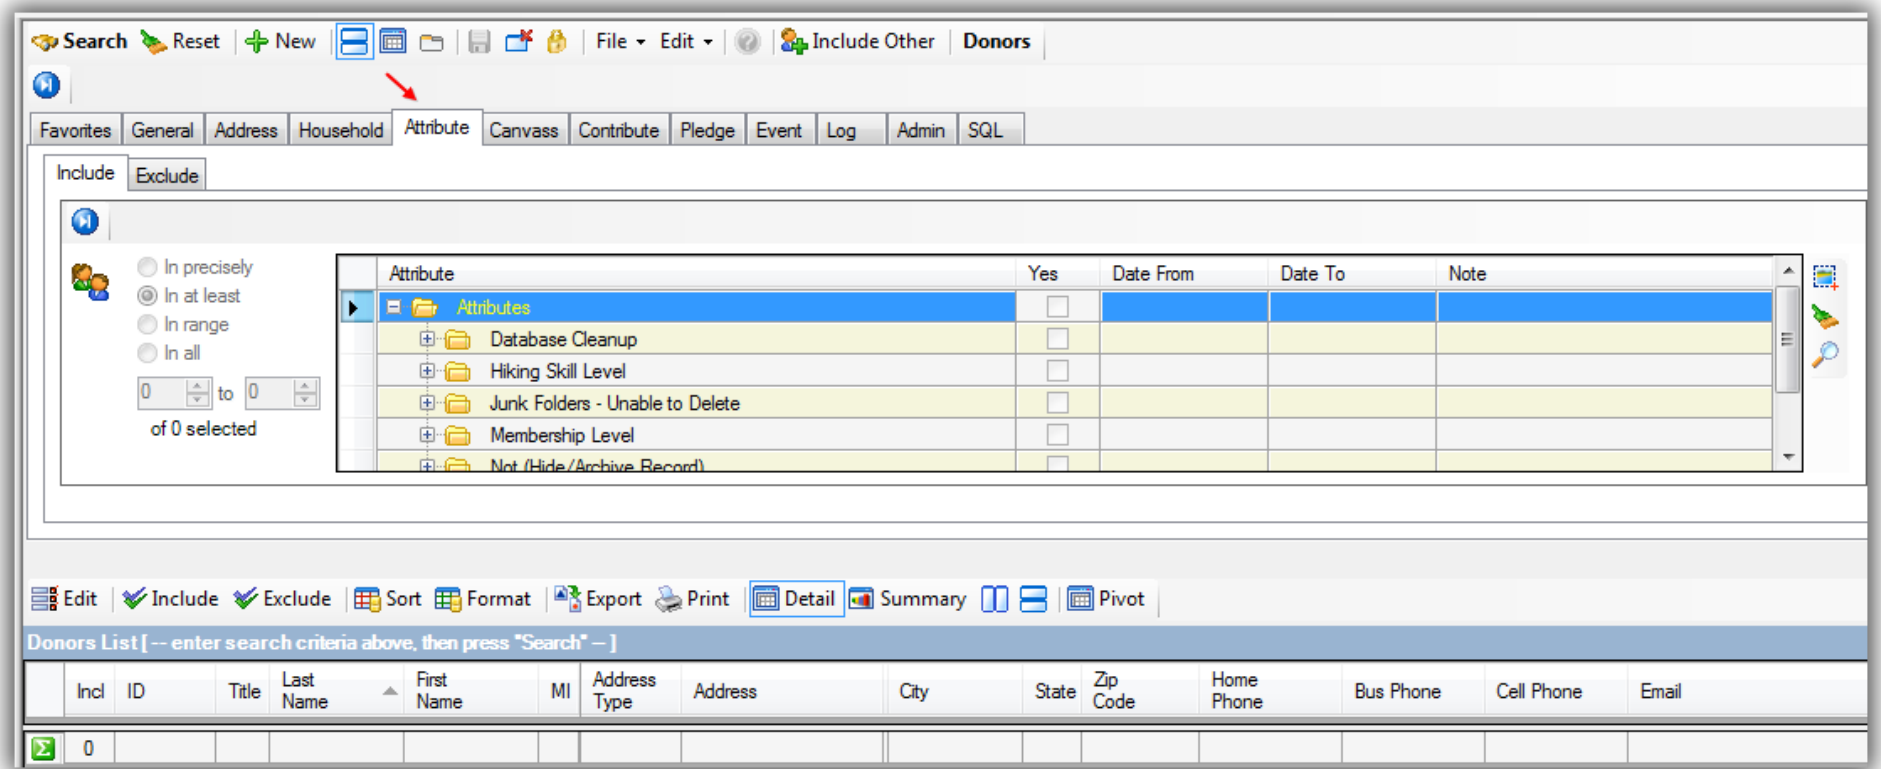

#2 Create a Source Attribute to Track Donations Coming in via Facebook

This is an **optional* step in the process, but beneficial in the fact that it allows you to more easily track where data is coming from into your database, much like how [Google Analytics](#) tracks visitors coming to your website. It could also be accomplished by tying your iFrame to a specific [event](#), but for this example I used an attribute.

Log into your database and navigate to your contact list “i.e. Donors, Voters etc.” *(In this example I used a nonprofit database and opened my Donors list.)*

Click on the **Attribute** tab.

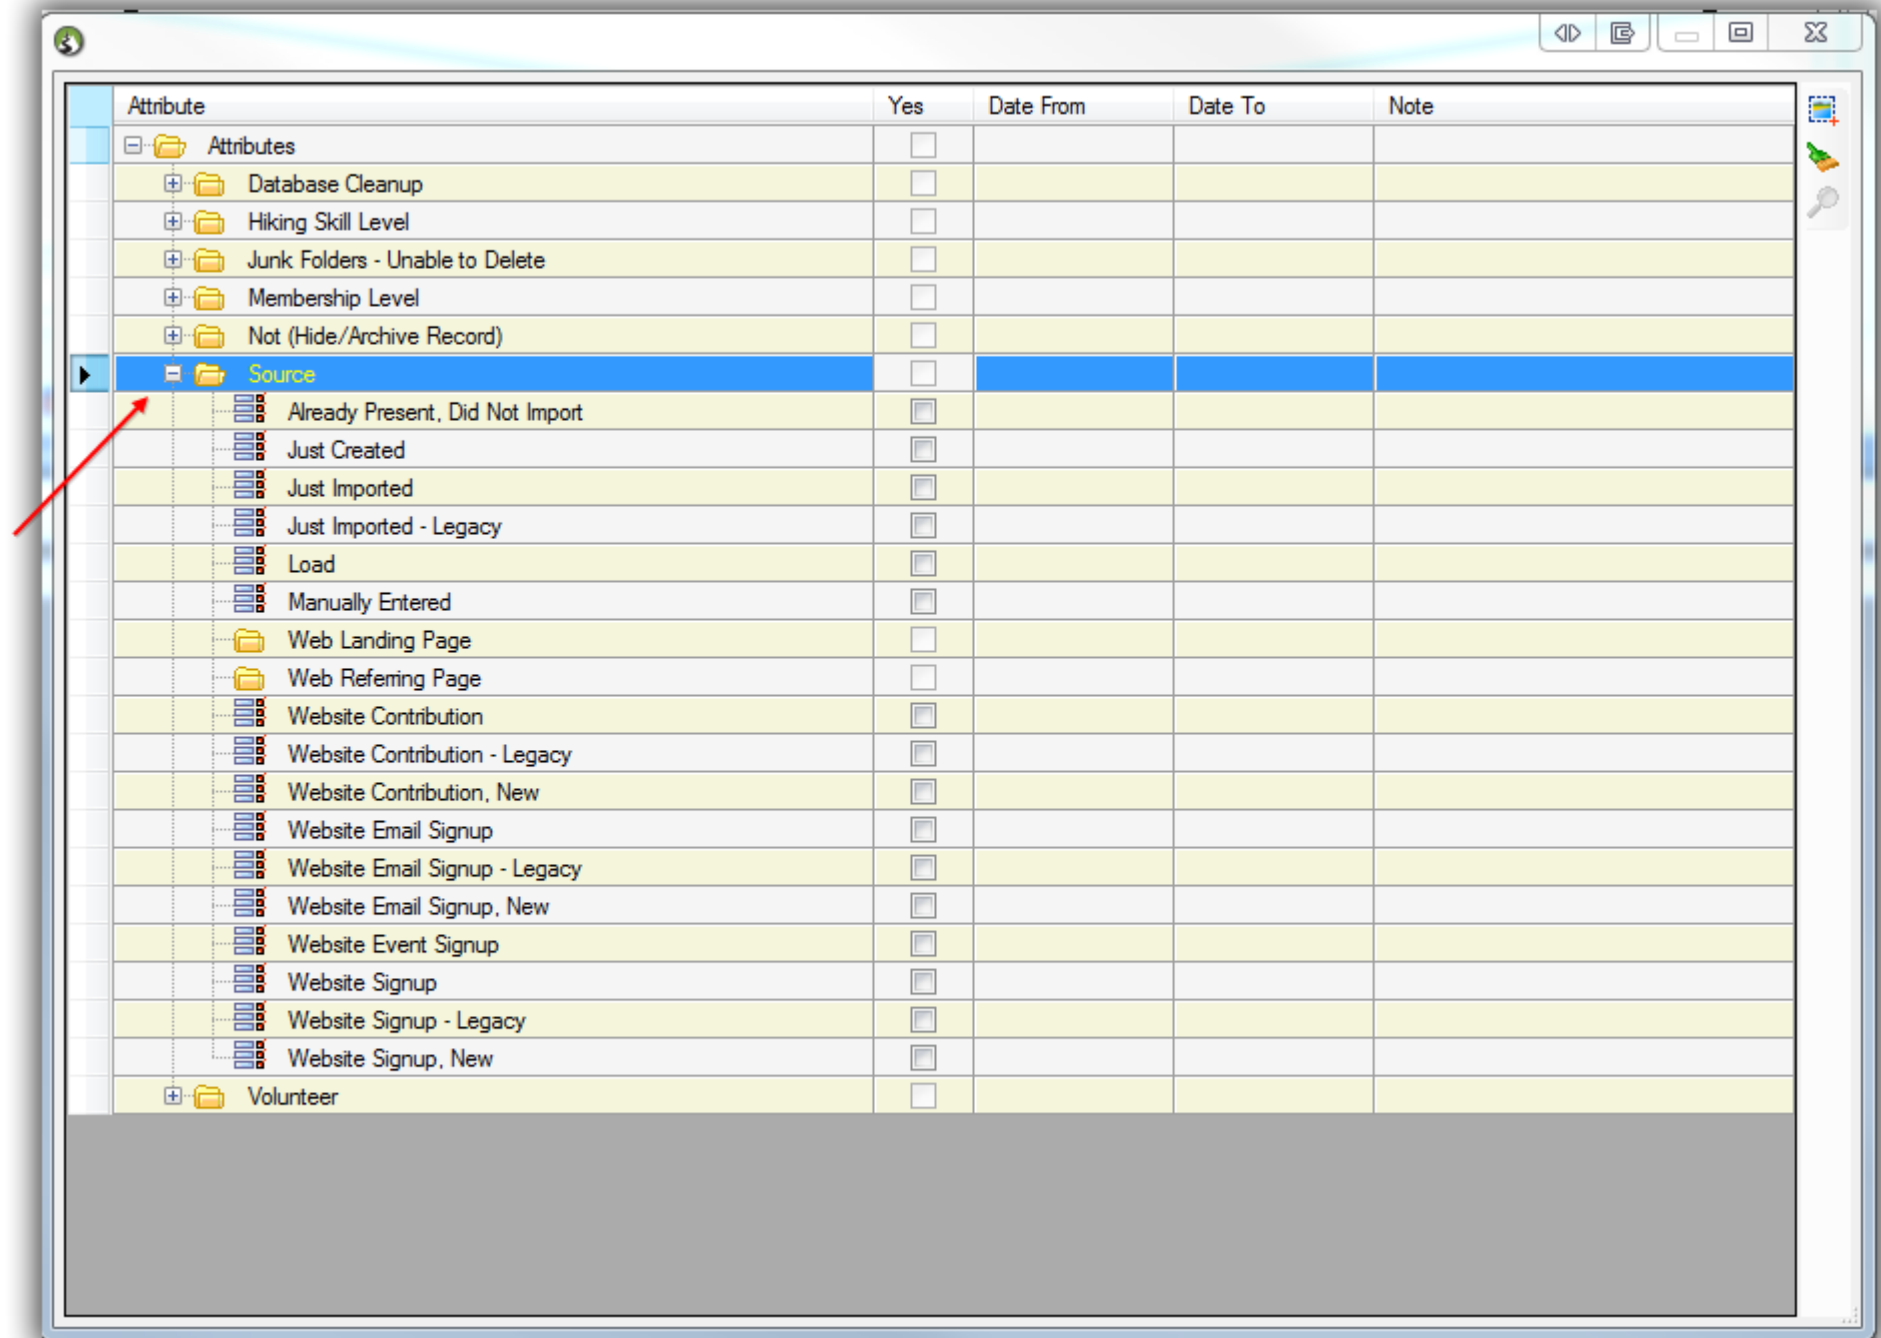

The screenshot shows the TrailBlazer software interface. At the top, there is a menu bar with options like Search, Reset, New, File, Edit, and Donors. Below this is a tabbed interface with tabs for Favorites, General, Address, Household, Attribute, Canvass, Contribute, Pledge, Event, Log, Admin, and SQL. The 'Attribute' tab is selected, and a red arrow points to it. Underneath, there are 'Include' and 'Exclude' buttons. A list of attributes is displayed in a table format:

Attribute	Yes	Date From	Date To	Note
Attributes	<input type="checkbox"/>			
Database Cleanup	<input type="checkbox"/>			
Hiking Skill Level	<input type="checkbox"/>			
Junk Folders - Unable to Delete	<input type="checkbox"/>			
Membership Level	<input type="checkbox"/>			
Not (Hide/Archive Record)	<input type="checkbox"/>			

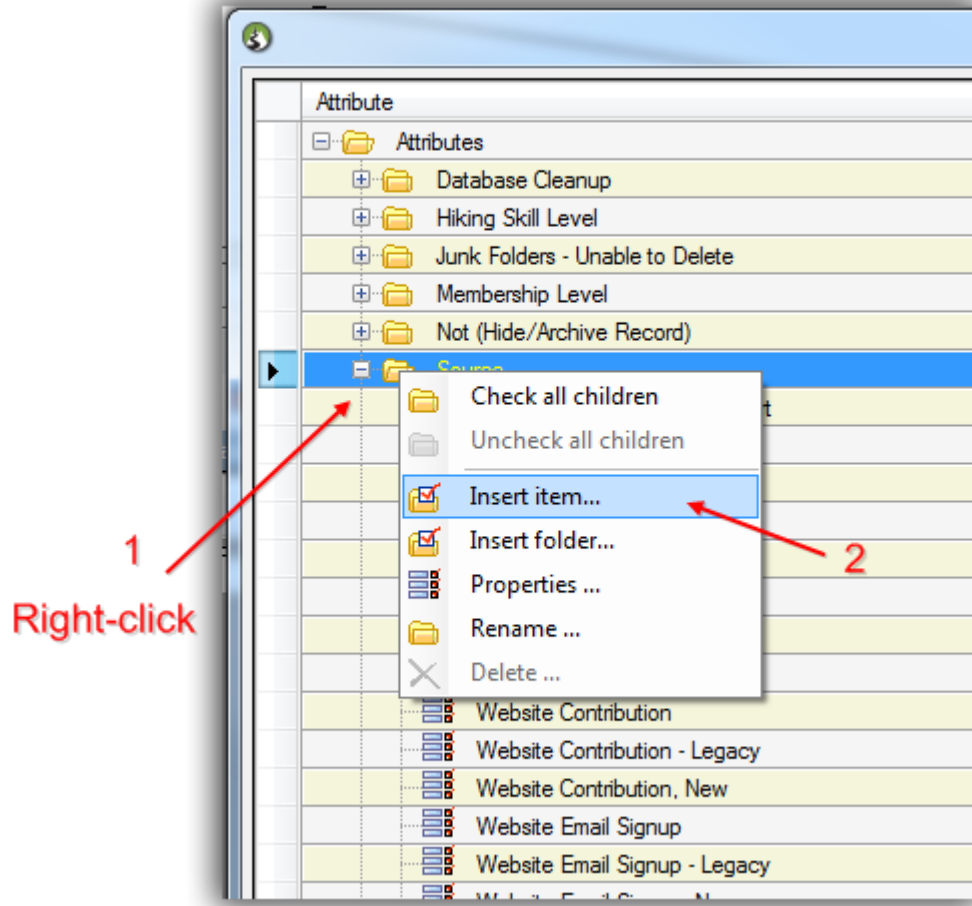

Below the attribute list, there is a toolbar with options like Edit, Include, Exclude, Sort, Format, Export, Print, Detail, Summary, and Pivot. At the bottom, there is a 'Donors List' section with a search bar and a table with columns: Incl, ID, Title, Last Name, First Name, MI, Address Type, Address, City, State, Zip Code, Home Phone, Bus Phone, Cell Phone, and Email. The first row of the table shows a sum symbol and the number 0.

Locate and expand the **Source** folder.

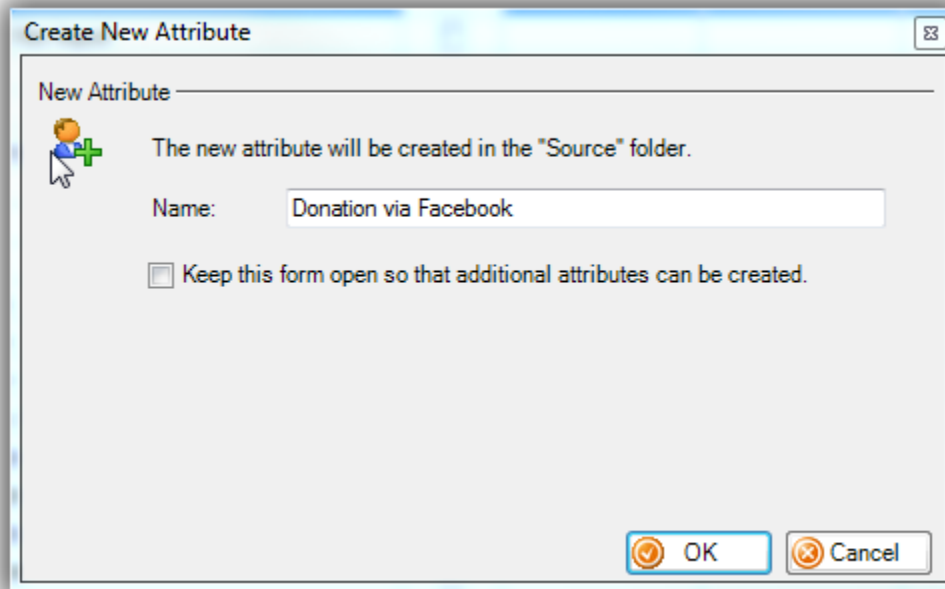

Attribute	Yes	Date From	Date To	Note
Attributes	<input type="checkbox"/>			
Database Cleanup	<input type="checkbox"/>			
Hiking Skill Level	<input type="checkbox"/>			
Junk Folders - Unable to Delete	<input type="checkbox"/>			
Membership Level	<input type="checkbox"/>			
Not (Hide/Archive Record)	<input type="checkbox"/>			
Source	<input type="checkbox"/>			
Already Present, Did Not Import	<input type="checkbox"/>			
Just Created	<input type="checkbox"/>			
Just Imported	<input type="checkbox"/>			
Just Imported - Legacy	<input type="checkbox"/>			
Load	<input type="checkbox"/>			
Manually Entered	<input type="checkbox"/>			
Web Landing Page	<input type="checkbox"/>			
Web Referring Page	<input type="checkbox"/>			
Website Contribution	<input type="checkbox"/>			
Website Contribution - Legacy	<input type="checkbox"/>			
Website Contribution, New	<input type="checkbox"/>			
Website Email Signup	<input type="checkbox"/>			
Website Email Signup - Legacy	<input type="checkbox"/>			
Website Email Signup, New	<input type="checkbox"/>			
Website Event Signup	<input type="checkbox"/>			
Website Signup	<input type="checkbox"/>			
Website Signup - Legacy	<input type="checkbox"/>			
Website Signup, New	<input type="checkbox"/>			
Volunteer	<input type="checkbox"/>			

Right-click the **Source** folder and select **Insert Item**.

Give your new source attribute a name, in this example I called mine **“Donation via Facebook”**.

Click [OK].

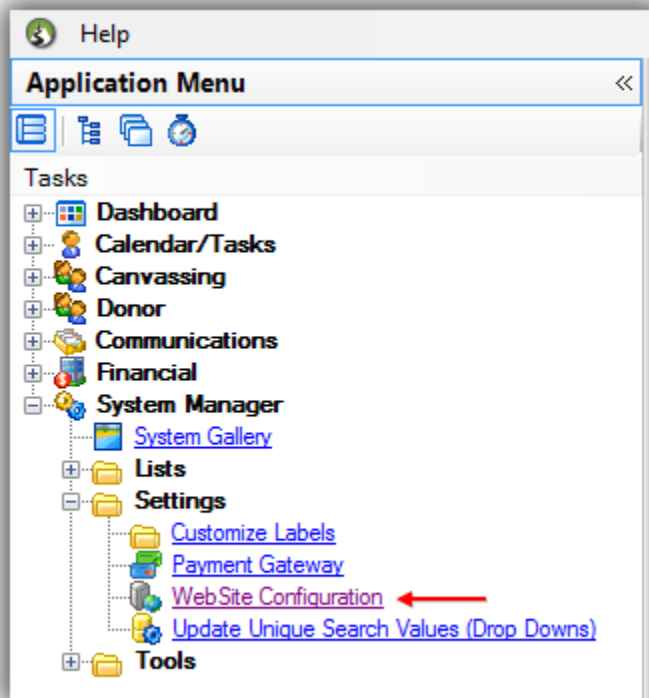

You're now finished with this step.

In the next section we will utilize the new source attribute when generating the donation form Iframe. ([Click here](#) to read more about creating attributes.)

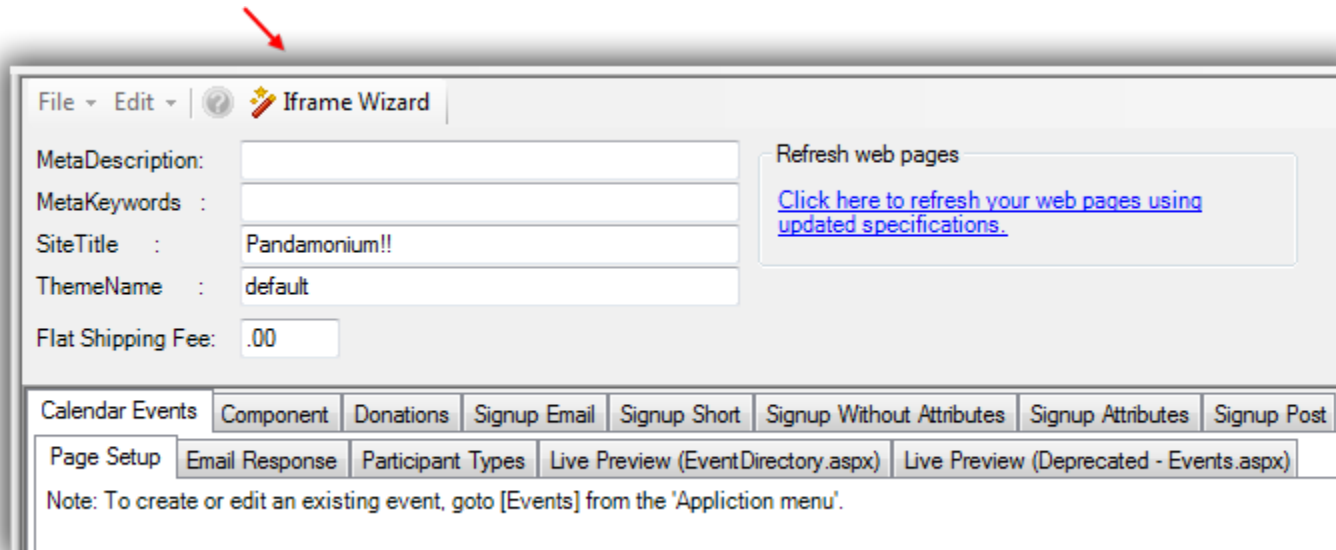

#3 How to Generate the Donation Form iFrame Code and Insert it into the Woobox App Tab

**You need [security clearance](#) to access this part of the database.*

Navigate to **WebSite Configuration**.

Click the **[Iframe Wizard]** button at the top.

IMPORTANT! You must select the redirect as **outside** of iFrame, it will take the donor away from your Facebook Page but the Woobox tab does **not** support a re-direct page within the iFrame.

Below is a detailed screenshot of my iFrame configurations, you may choose other options depending on your needs.

You'll **need** to use your own thank-you page **redirect** URL. I chose to assign donations coming in via Facebook to an internal [event](#) as well as the **source attribute** created in section #2.

Select Version 2 as the Page Version for the new mobile responsive layout.

Select No

Select Redirect Thank You Page 'outside' of iframe.

Link To Event for easier reporting.

Select Donations as Frame

Select Yes if you want to support international donations.

You'll likely want to increase height and width to better fit in the Woobox tab.

Link to a Source attribute to track donor origin.

Trail Blazer Version 6.2.5304.22853 Demo Nonprofit Joel - [Iframe Wizard]

Help

Select Frame: Select Donations as Frame

Page Version: International Form Support: Select Yes if you want to support international donations.

Allow Scrolling: Width x Height: 800 px, 1,600 px You'll likely want to increase height and width to better fit in the Woobox tab.

Redirect Type: You'll likely want to increase height and width to better fit in the Woobox tab.

Thank You Page:

Link To Event: Link To Attribute: Link to a Source attribute to track donor origin.

Copy and paste the HTML below to include on your webpage.

```
<!-- Trail Blazer 07/30/2014 -->
<iframe src="https://www.trailblz.info/DemoNonprofit_Joel/Donations.aspx?rdif=http%3a%2f%2ftrailblz.com%2fdemositemarkonly%2fnew%2fthankyou.html&eventid=49&originid=10357&ver=2&international=1" style="width:800px;height:1600px" frameborder="0" scrolling="no" onload="scroll(0,0)" ></iframe>
```

Verify selected iframe below.

Verify selected "Thank You" Page below.

Please verify your thank you page

Live Preview

Click the [Verify Redirect] button above to see a live preview of your redirect thank you page.

Here are my iFrame settings written out:

Select Frame: donations.aspx

Page Version: Version 2

International Form Support: Yes

Allow Scrolling: No

Width x Height: 800px/1,600px

Redirect Type: Redirect Thank You Page 'outside' of iframe. Type, RDIF=

Thank You Page: <http://www.trailblz.com/demositemarkonly/new/thankyou.html>

Link To Event: Internal Event – Donations via Social Media

Link To Attribute: \Source\Donation via Facebook

Here's my final donation iFrame code, the text in **red** would **need** to be replaced with your information:

```
<!-- Trail Blazer 07/30/2014 -->
```

```
<iframe  
src="https://www.trailblz.info/DemoNonprofit_Joel/Donations.aspx?rdif=http%3a%2f%2ftrailblz.com%2fdemositemarkonly%2fnew%2fthankyou.html&eventid  
=49&originid=10357&ver=2&international=1" style="width:800px;height:1600px" frameborder="0" scrolling="no" onload="scroll(0,0)" ></iframe>  
<!-- Trail Blazer 07/30/2014 -->
```

Click **[Copy HTML]** to copy the iframe code to your clipboard.

Select Frame:

Page Version: International Form Support

Allow Scrolling: Width x Height px px

Redirect Type:

Thank You Page:

Link To Event: Link To Attribute:

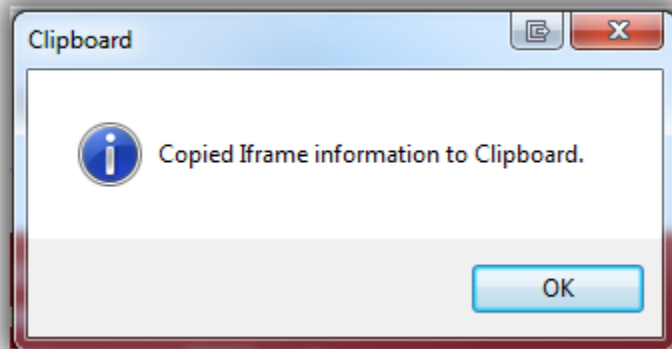

Copy and paste the HTML below to include on your webpage. ←

```
<!-- Trail Blazer 07/30/2014 -->
<iframe src="https://www.trailblz.info/DemoNonprofit_Joel/Donations.aspx?rdif=http%3a%2f%2ftrailblz.com%2fdemositemarkonly%2fnew%2fthankyou.html&eventid=49&originid=10357&ver=2&international=1"
style="width:500px;height:1600px" frameborder="0" scrolling="yes" onload="scroll(0,0)"
></iframe>
```

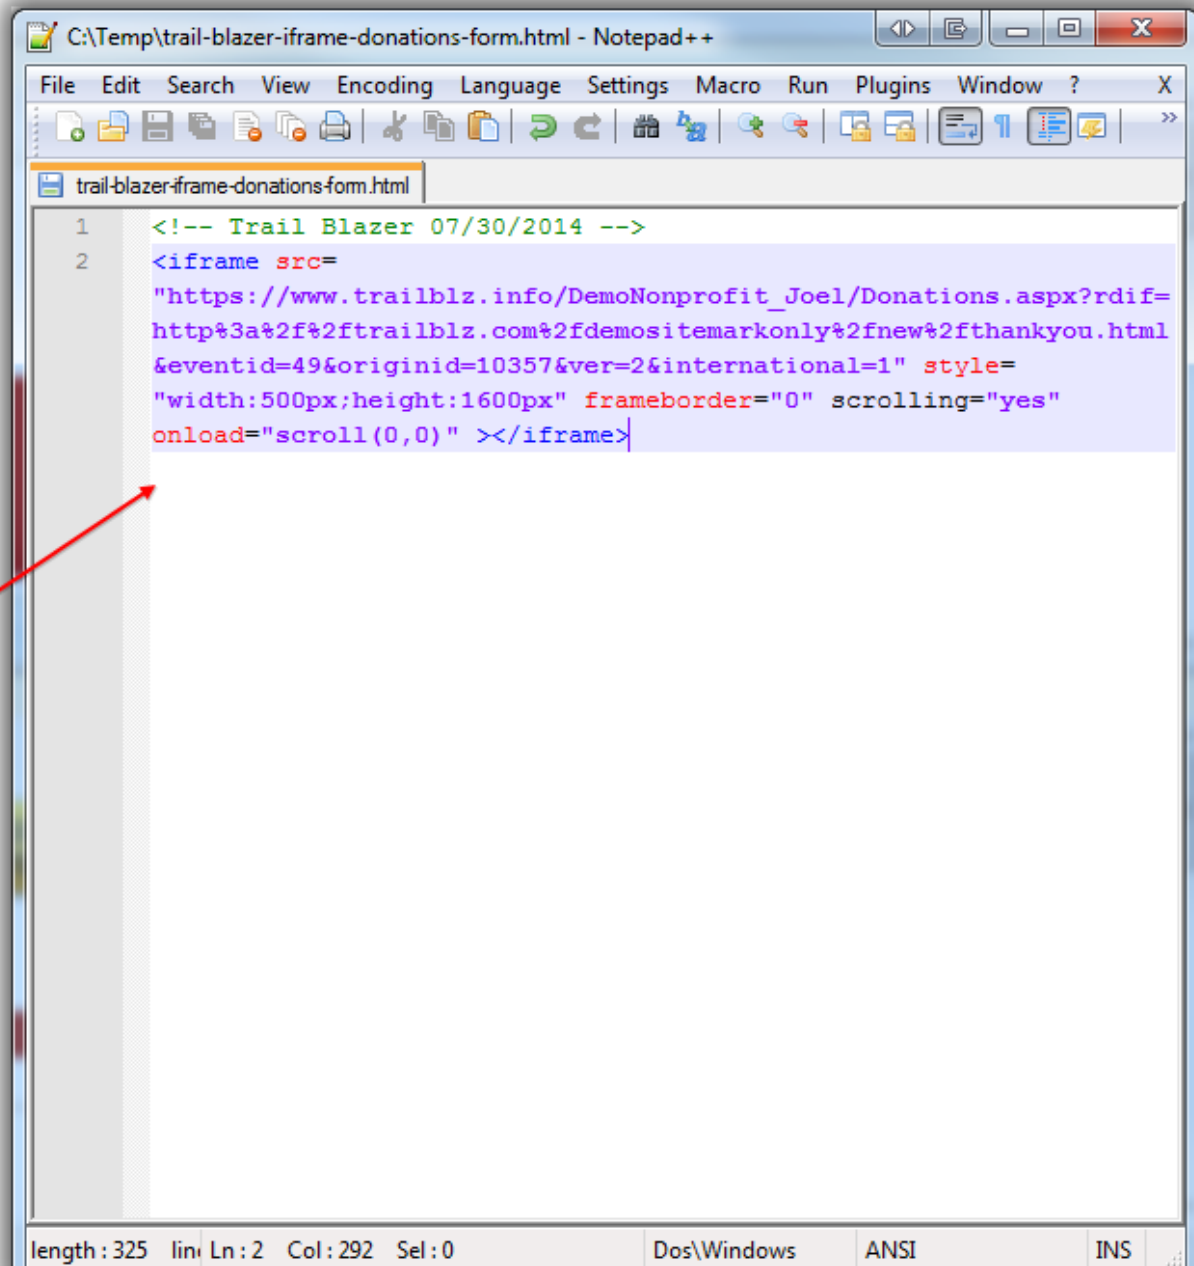

Iframe code that Trail Blazer creates for you.

Click **[OK]** to close the popup.

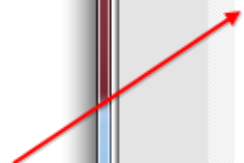

I would suggest saving this in a blank text document with all of your other **Trail Blazer** iFrame forms. *I prefer the free [Notepad++](#) app because you can save as an .html document and it helps color the code for readability.*

Save as an .html document.

```
C:\Temp\trail-blazer-iframe-donations-form.html - Notepad++
File Edit Search View Encoding Language Settings Macro Run Plugins Window ? X
trail-blazer-iframe-donations-form.html
1 <!-- Trail Blazer 07/30/2014 -->
2 <iframe src=
  "https://www.trailblz.info/DemoNonprofit_Joel/Donations.aspx?rdif=
  http%3a%2f%2ftrailblz.com%2fdemositemarkonly%2fnew%2fthankyou.html
  &eventid=49&originid=10357&ver=2&international=1" style=
  "width:500px;height:1600px" frameborder="0" scrolling="yes"
  onload="scroll(0,0)" ></iframe>
```

Paste (Control+v)

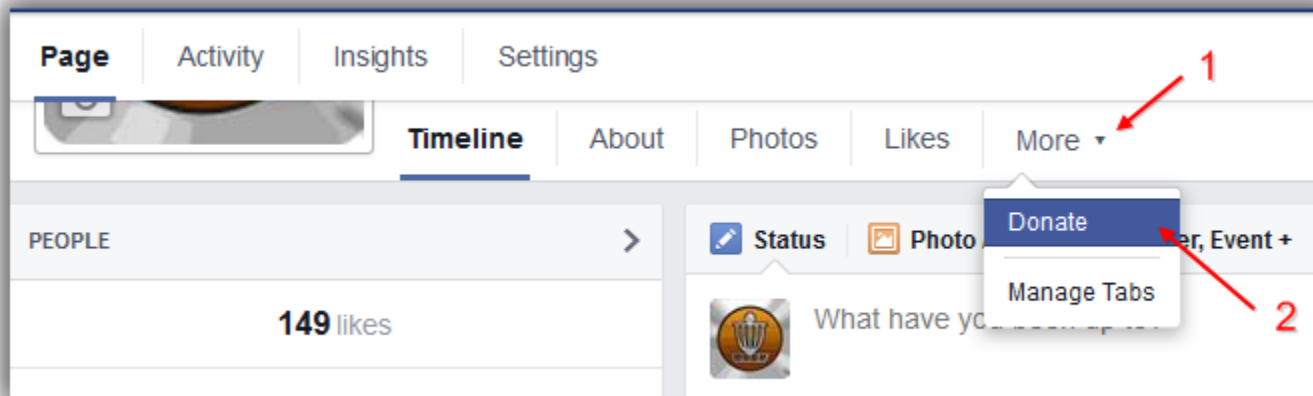

You're finished with the iFrame generation. You can close the **Trail Blazer** app.

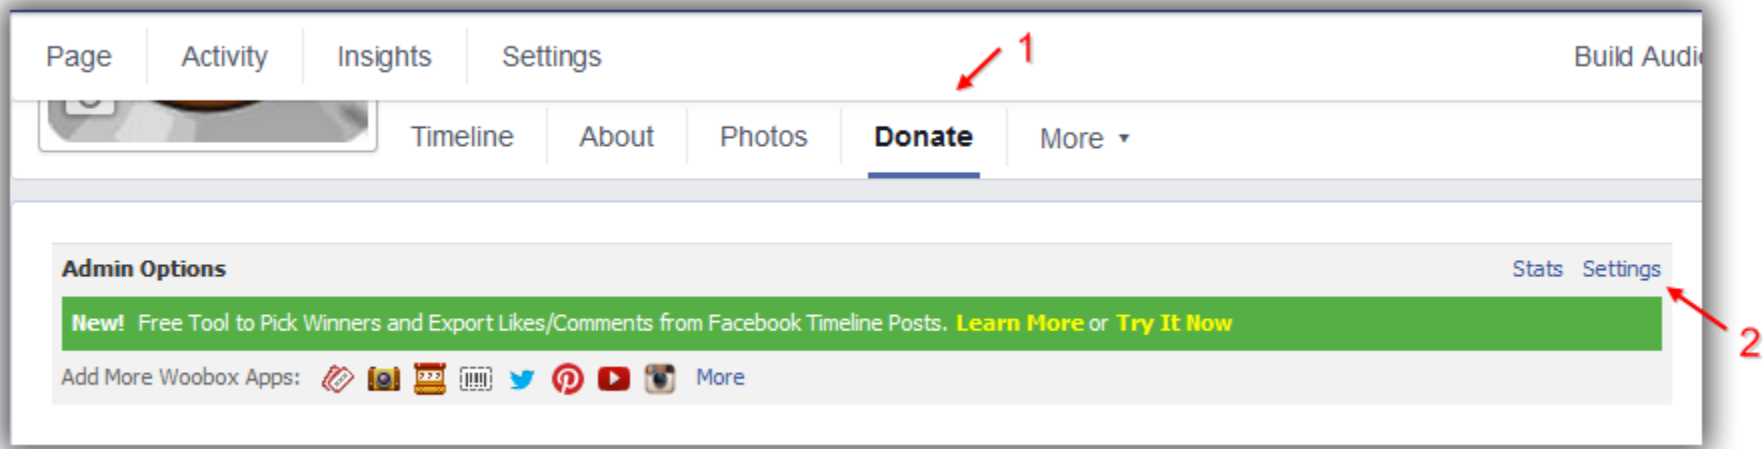

Once the code is pasted into your Facebook page you can return to [website configuration](#) to make modifications such as Donation Amounts/Descriptions, select which email template to use as an auto-responder, and many other customizations.

Log into your Facebook account and open your Facebook page that you manage.

Click on the **More** drop-down menu and select the Woobox tab, by default it will be called "Welcome" I renamed mine to "Donate".

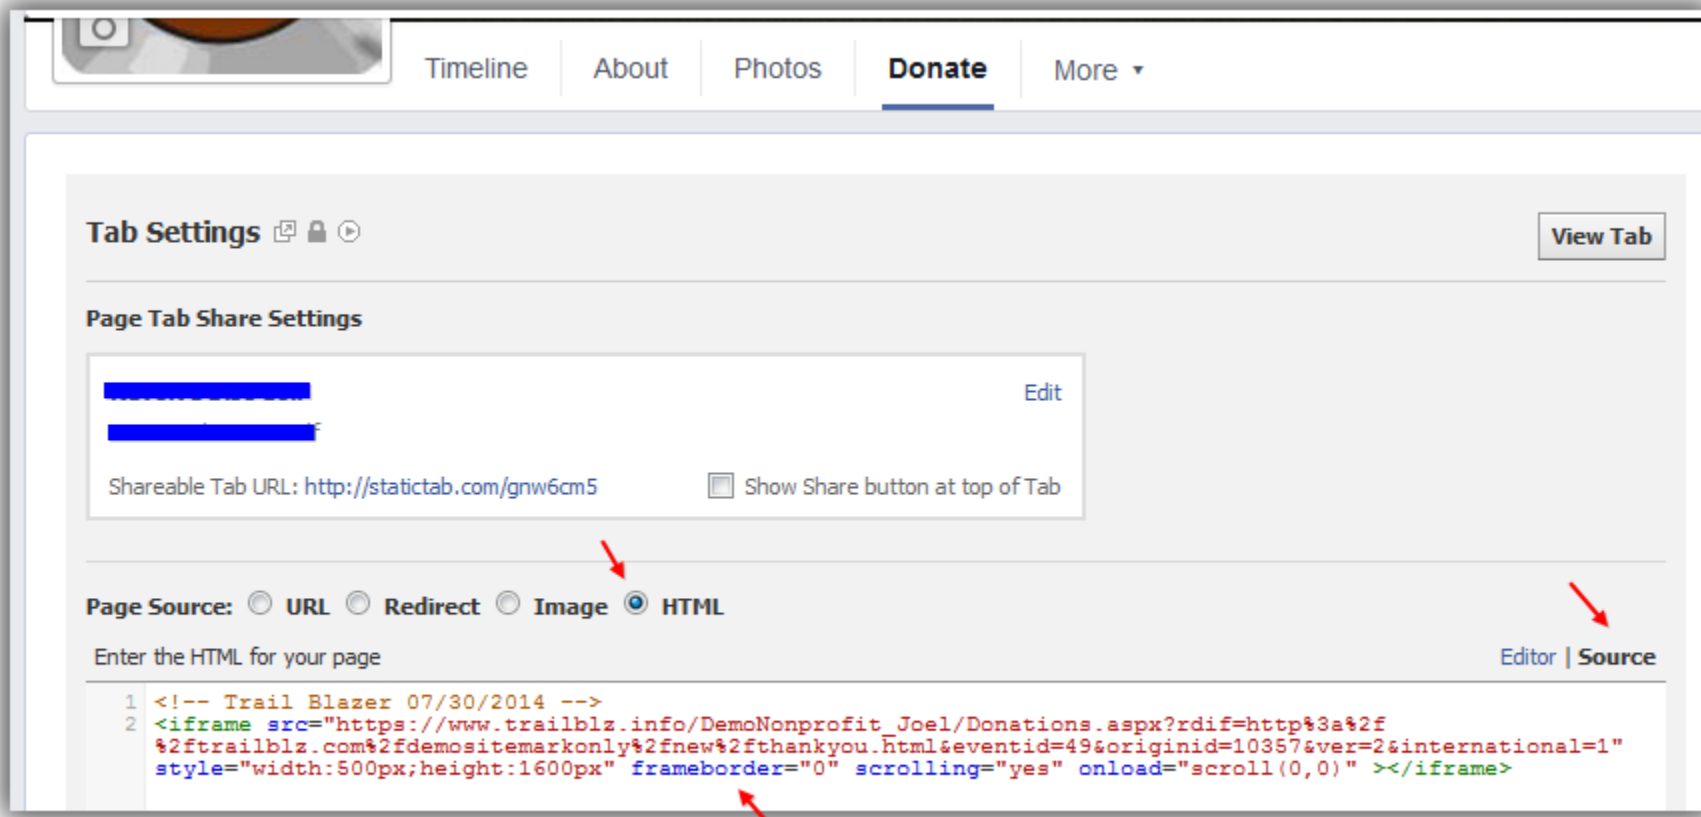

Later I will show how to **Manage Tabs** which allows you to easily move the order of your tabs so that ***Donate*** displays right next to ***About*** instead of in the **More** drop-down menu.

You may be prompted with a security warning to **Authorize** the app, click the authorize button to proceed.

Copy the iFrame code you generated and past it into the **HTML** source editor.

Paste in iFrame code.

Scroll the bottom of the page and click **[Save Settings]**. If you haven't already changed your tab name you can do so in this location.

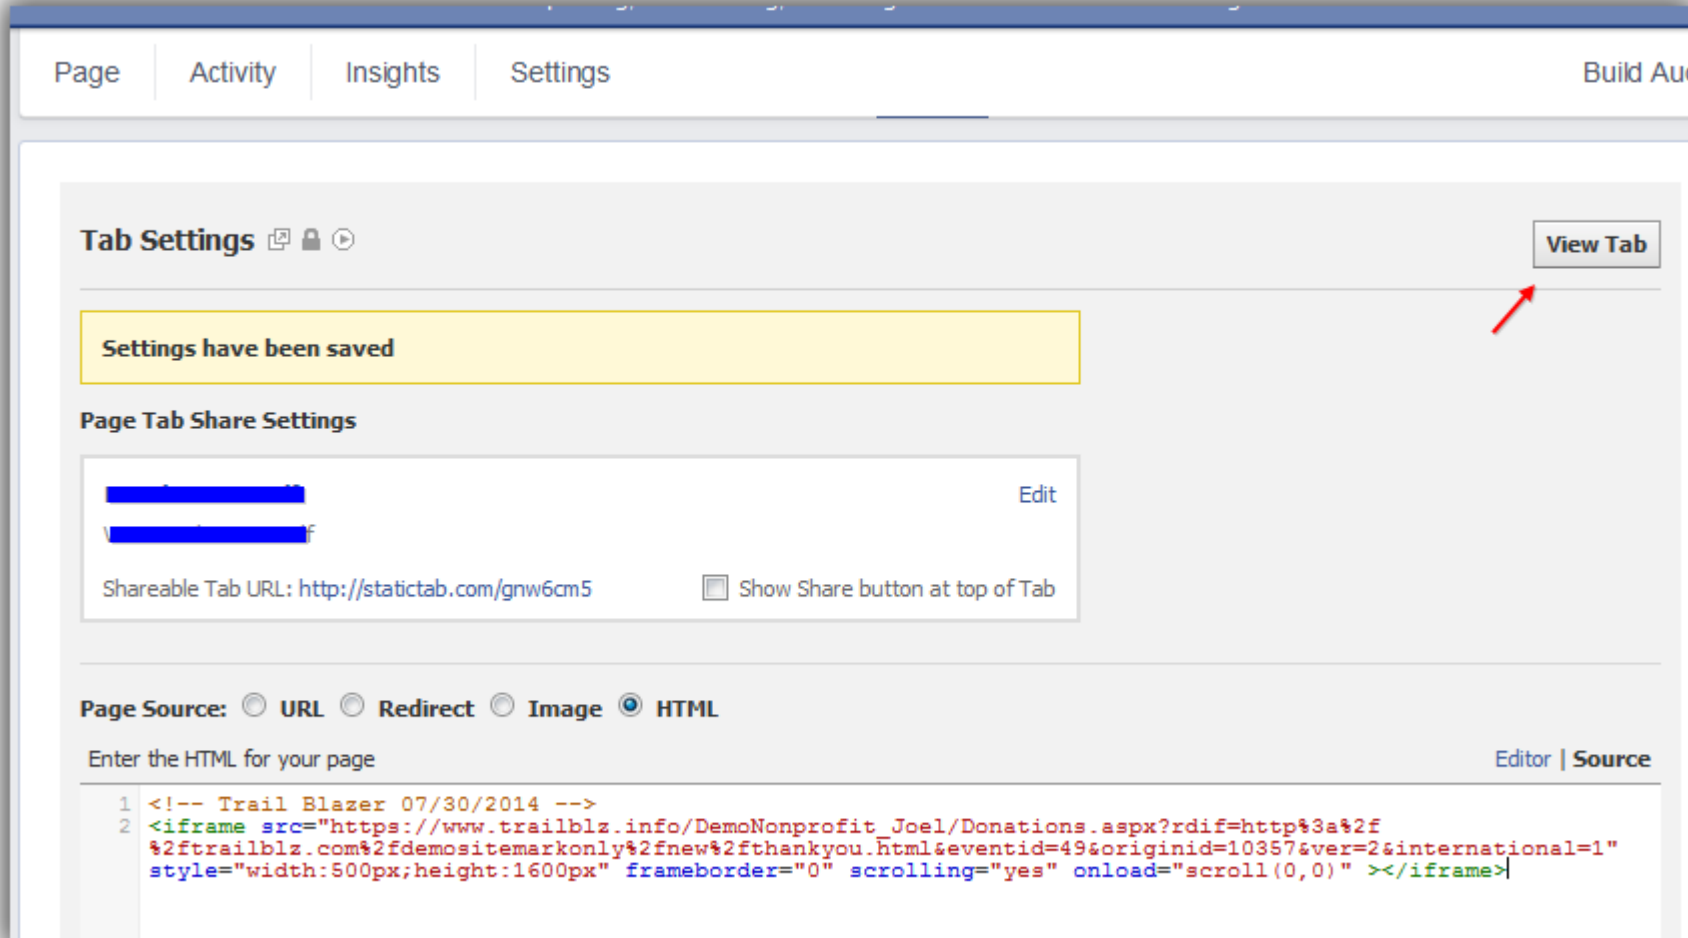

The screenshot shows the Facebook Settings interface for a page tab. At the top, there are navigation tabs: Page, Activity, Insights, and Settings. The 'Settings' tab is selected. On the right side, there is a 'Build Audie' button. The main content area contains several settings sections:

- Fan-Gate (Non-Fan Page Source):** Radio buttons for Off (selected), URL, Image, and HTML. Below it, text says: "Fan-gating is turned off. Fans and Non-fans will see your tab content."
- Friend-Gate:** Radio buttons for Off (selected), Default, and HTML. Below it, text says: "Friend-gate is turned off. Visitor's friends do not need to be fans to access your content."
- Form-Gate:** Radio buttons for Off (selected) and HTML. Below it, text says: "Form-gate is turned off. Visitors do not complete an input form to access your content."
- Tab Icon:** Text: "Instructions for using your own tab icon."
- Tab Name:** A text input field containing "Donate". A red arrow points to this field with the text "Change Tab Name".
- Tab Image:** Text: "Change Tab Image (111px wide by 74px tall)".
- Install Another Tab:** A row of social media sharing icons.

At the bottom right of the settings area, there are two buttons: "Cancel" and "Save Settings". A red arrow points to the "Save Settings" button. At the bottom left, there is a footer for the app: "This app was created by Woobox. Questions? Email us at support@woobox.com." Below that is the Woobox logo and a Facebook Like button showing 189k likes.

Scroll back to the top and click **[View Tab]**.

Below is a screenshot, if you need to make modifications click on the **Settings** tab.

(Navigate to your Facebook page as a *visitor*)

Fill out and process a test donation.
