## Overview

This article is for people who want to access their **Trail Blazer** database off of an iDevice such as an iPad, iPhone, or iPod touch. **Trail Blazer** is intended for desktop use, especially when performing more advanced tasks, but this option will still allow you to view the entire application so that you can pull reports, perform data entry, etc.

 **Tip:** Purchase a **stylus** for your iDevice so that you don't muck it up with fingerprints, and it will greatly improve the accuracy of 'taps' when using **Trail Blazer** in this way.

# How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

## Steps

Launch the **App Store** app on your device.

# How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

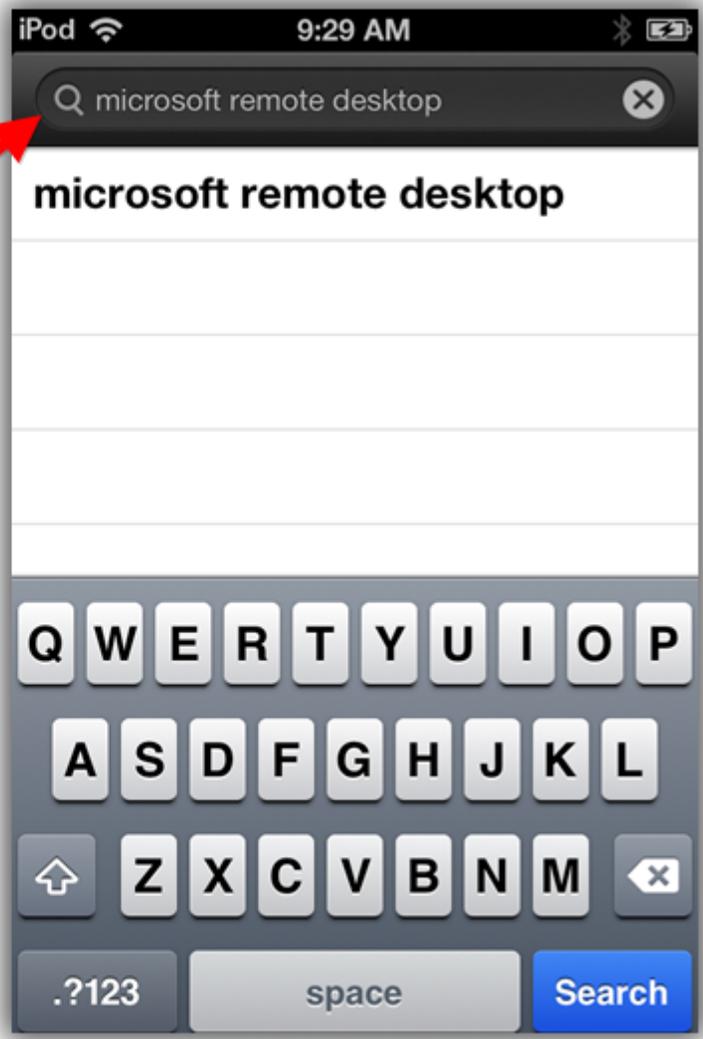

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

Search for '**Microsoft Remote Desktop**' on in the search box, and select it from the results.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

**Search for 'Microsoft Remote Desktop'.**

# How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

Tap on the **[+ Get]** button.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

Tap on **[Install App]** to initiate the download process.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

If you're *already* logged in with your **Apple ID** the download will start right away, if you *aren't* logged in you'll either need to select the option to sign into your Apple ID, or [create a new one](#).

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

**Either log in with your current Apple ID account, or create a new one if necessary.**

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

In my *example* signed in with an existing Apple ID.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

**1. Enter your UN/PW.**

**2. Click [OK].**

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

Once the download/install is complete, launch the application.

# How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

Below is a screenshot of the home screen on the Remote Desktop app. Tap on the **[+]** button in the upper-right to begin creating a new connection.

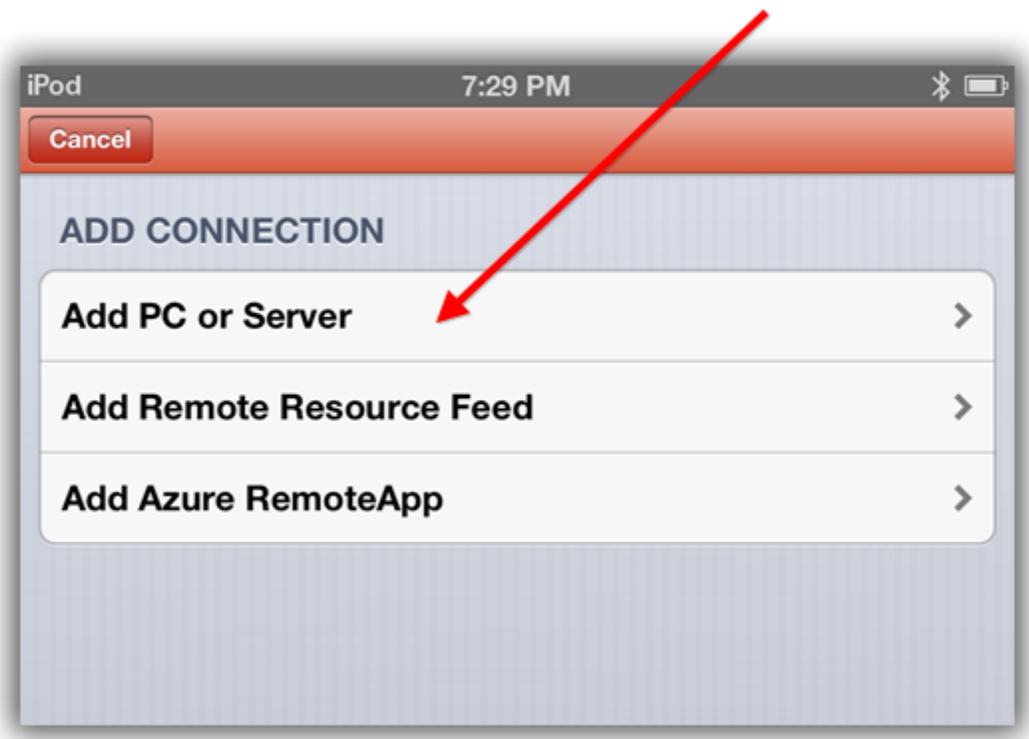

**Click the **[+]** to begin creating a new connection.**

This will bring you to the **Add Connection** screen. Select **Add PC or Server** from the list.

# How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

**Begin adding a new connection.**

Select the option for **PC Name – Host name or IP address**.

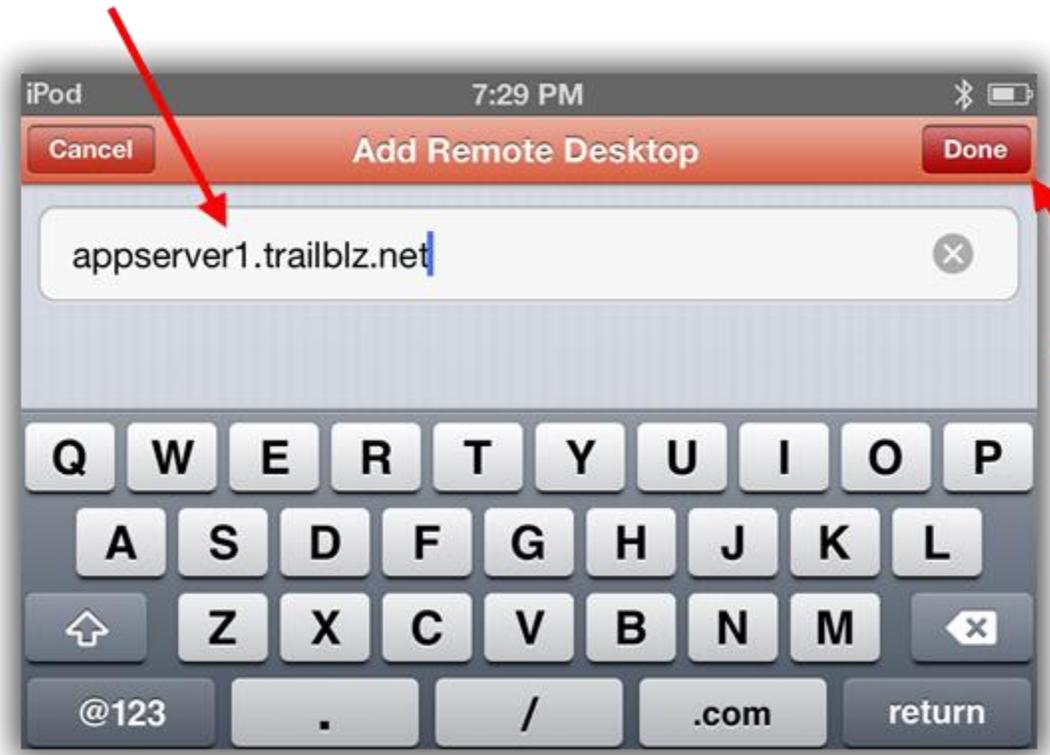

**Select this option to add Trail Blazer's remote app server.**

Enter the **Host name** or **IP address**, which is **'appserver1.trailblz.net'**, and then tap on **[Done]**.

# How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

**1. Enter 'appserver1.trailblz.net'**

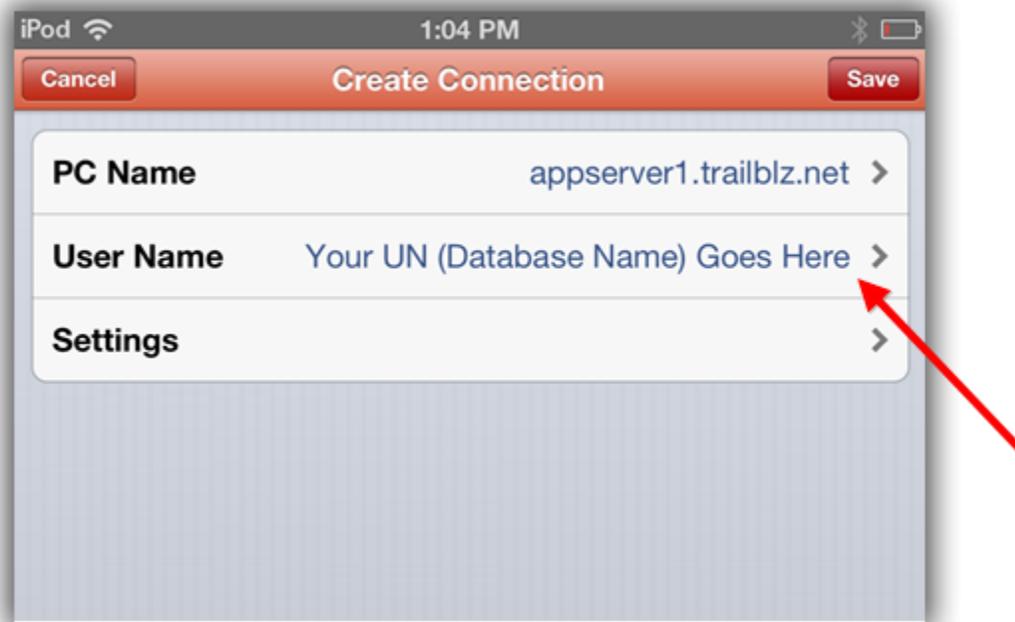

**2. Tap on [Done].**

Click on the **User Name** option.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

In the **User Names** screen tap on the option for **Add User Account**.

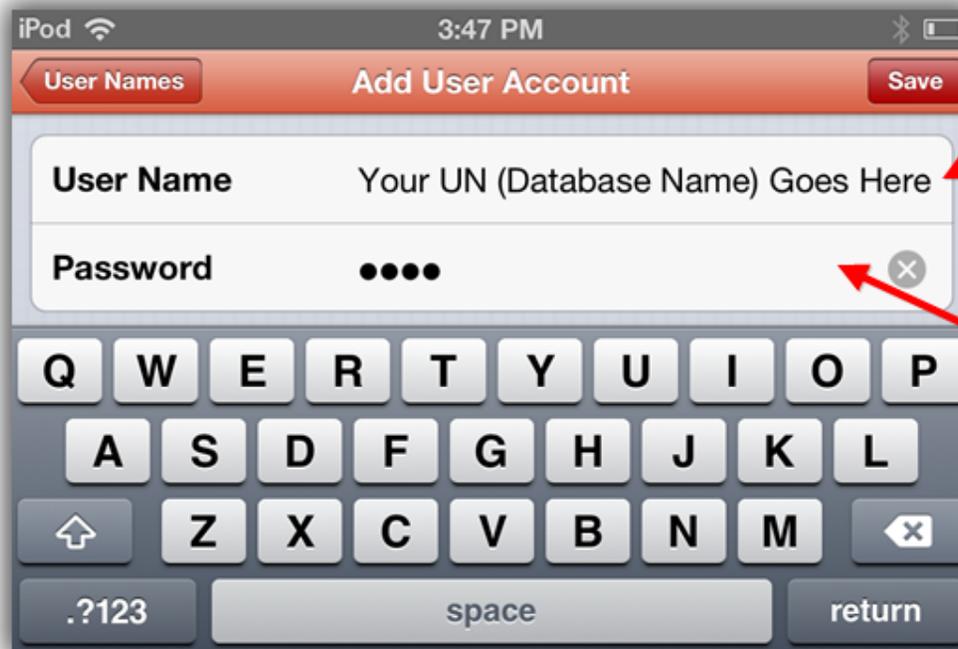

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

Input your **UN** (same as your **Database Name**) & **PW** (this is shared between all members of your org who connect this way, once logged in you'll use your own credentials), then hit **[Save]**.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

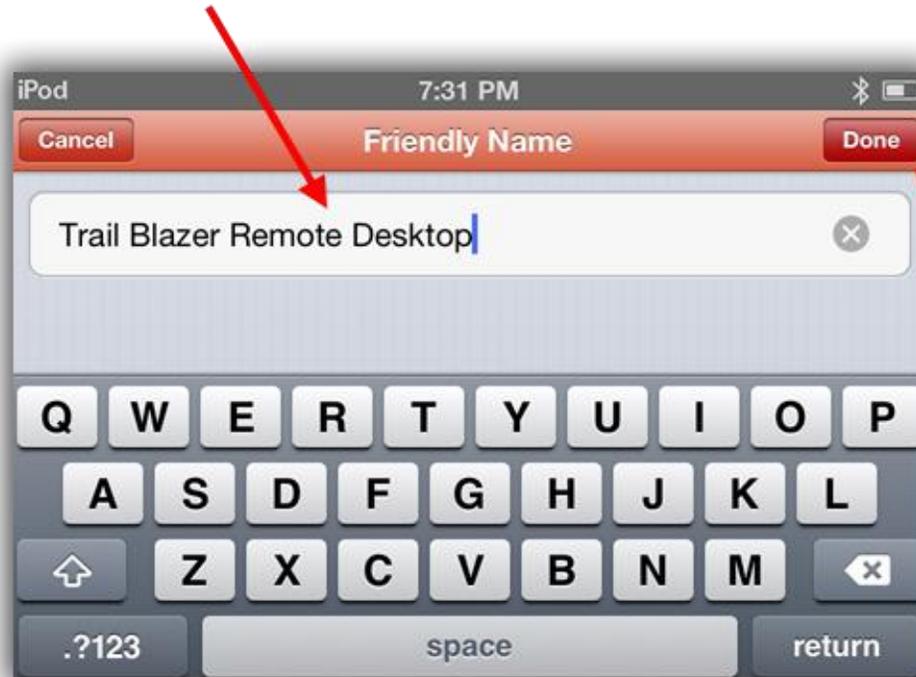

**Enter your UN (Database Name).**

**Enter your PW (shared by all team members connecting this way).**

Once this is saved you can enter a **Friendly Name**, in my *example* I called mine “**Trail Blazer Remote Desktop**”.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

### 1. Enter your friendly name.

### 2. Tap on [Done] to finish.

Last but not least you'll need to navigate to the **Settings** screen.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

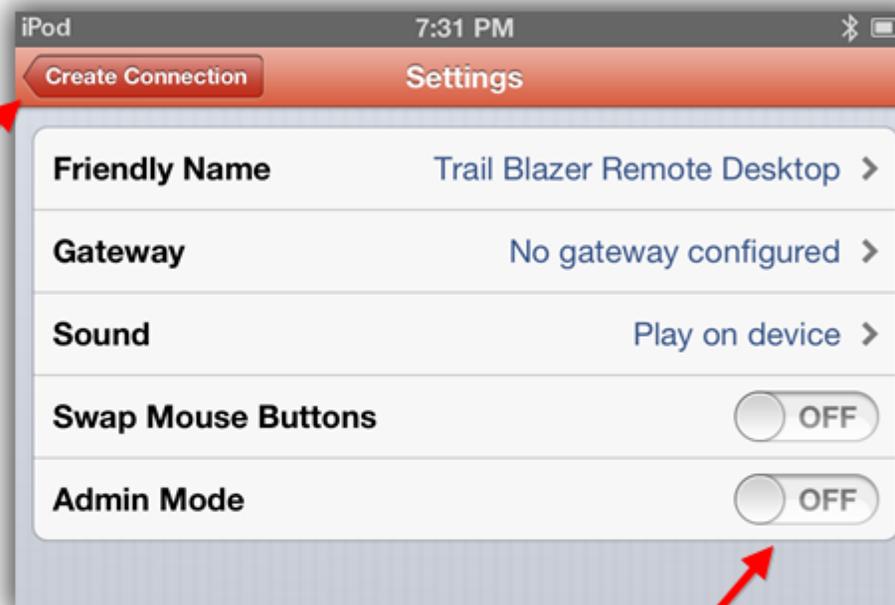

---

Configure your settings. For the most part you can just use the defaults. My *example* is below.

**These are the settings you'll want to use (most can be left as their default).**

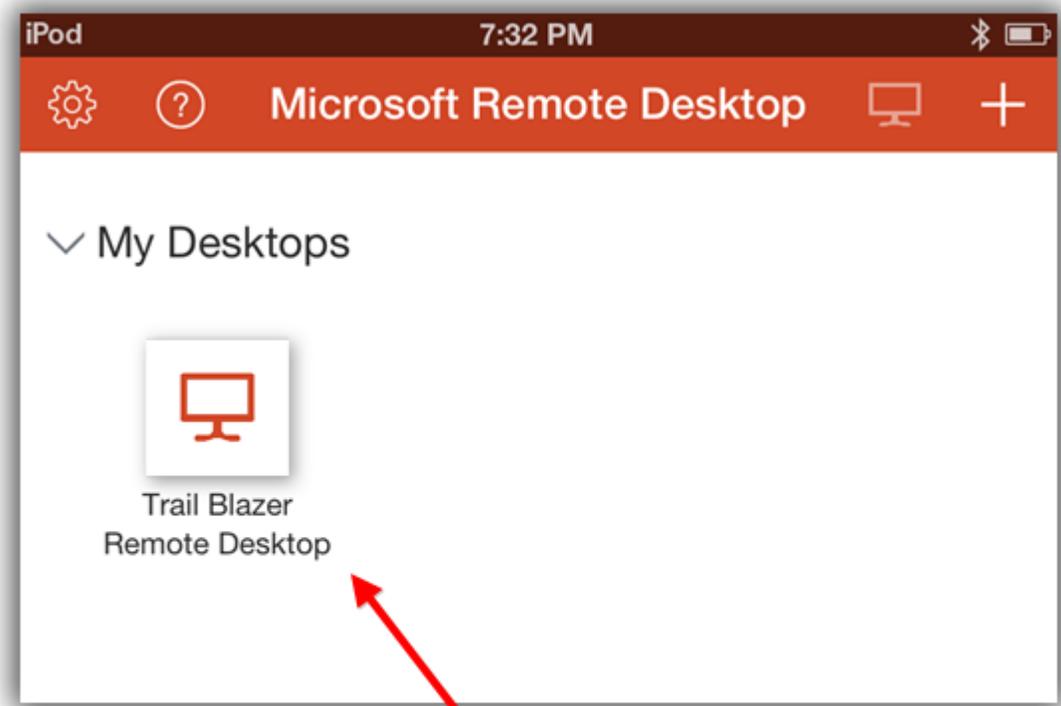

**Once the settings are configured tap on this button to return back to the Create Connection screen.**

**Make sure this is 'NOT' turned on or the log in process will fail.**

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

Once the connection is complete it'll look similar to the image below. Tap on your new connection to begin the log in process.

**Tap on the new connection to log into the remote server.**

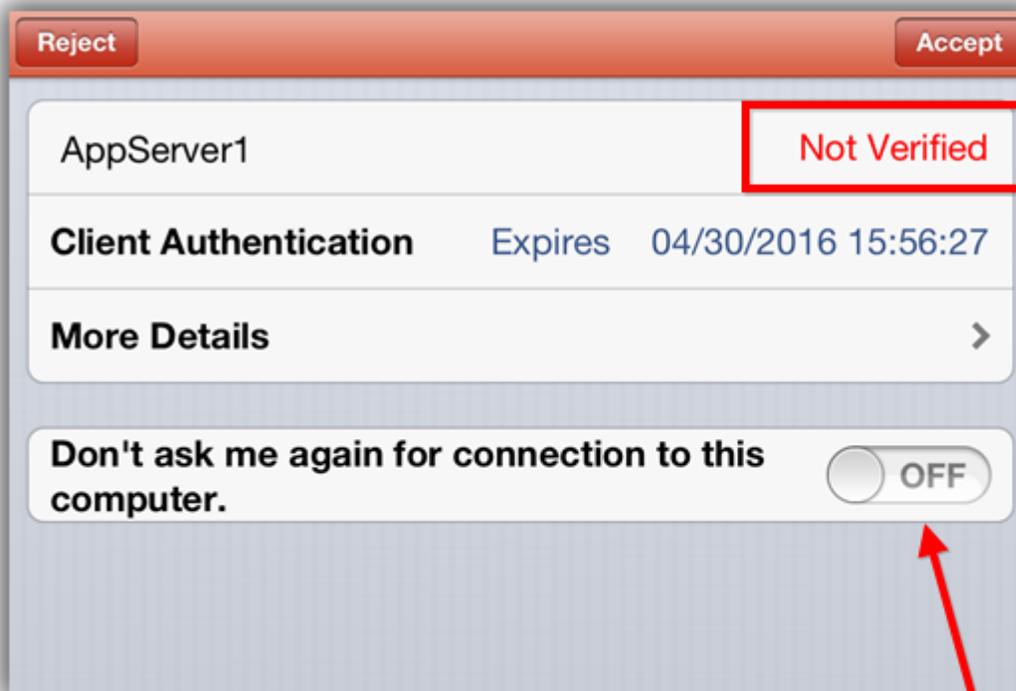

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

The first time you connect you'll get a warning message regarding the server certificate. If you prefer not to see this message each time, flip the switch on at the bottom that says '**Don't ask me again for the connection to this computer**' and then tap on **[Accept]**.

Img 1 – Server Not Verified

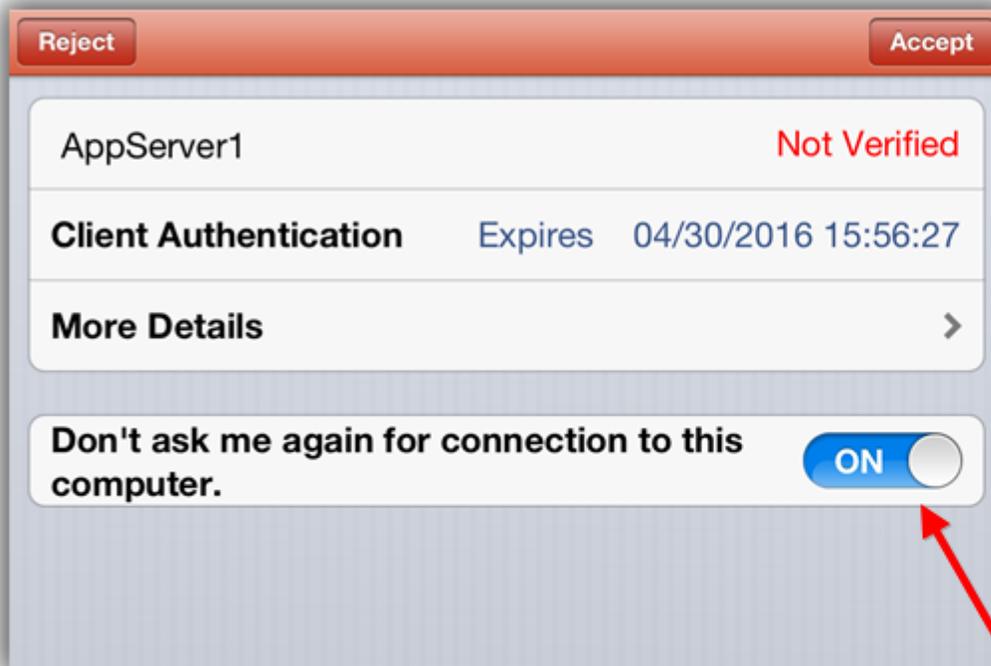

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

**By default the first time you log in this setting will be set to 'OFF'.**

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

Img 2 – Turn Setting to 'On' and Tap [Accept]

**2. Tap on the [Accept] button to proceed with the log in.**

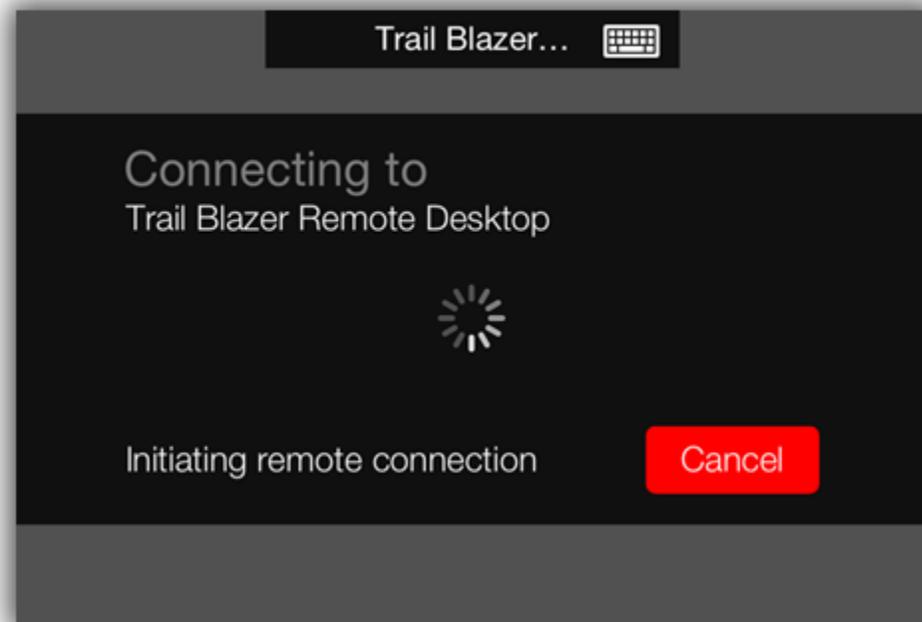

**1. Turn this setting to [ON] so that you don't get this warning screen everytime you log on.**

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

You'll get a load screen as the log in proceeds.

### **Load screen while accessing the remote server.**

Below is a screenshot of what the remote desktop looks like when first logging in. Tap on the Trail Blazer icon to launch the application.

## View when first logging into the remote desktop via a mobile device.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

---

Enter your UN, PW, and click **[OK]** to log in. *You can use the keyboard controls that will pop-up after tapping on a field as shown in the image below.*

**Input your UN & PW, then click [OK] to log into your database.**

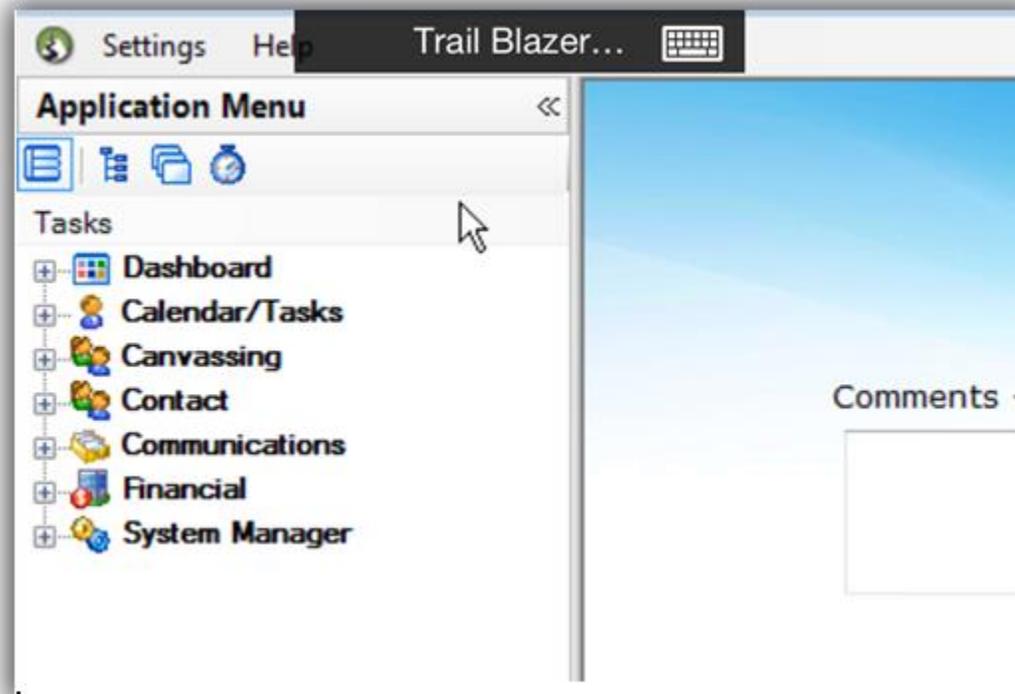

**This keyboard will popup once you tap on a field to input text/numbers/etc.**

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

Below is an *example* of a zoomed-in view on my iPod touch looking at the Application Menu. As you can see the program renders very small on smaller screens, but you can still navigate the full application with some practice.

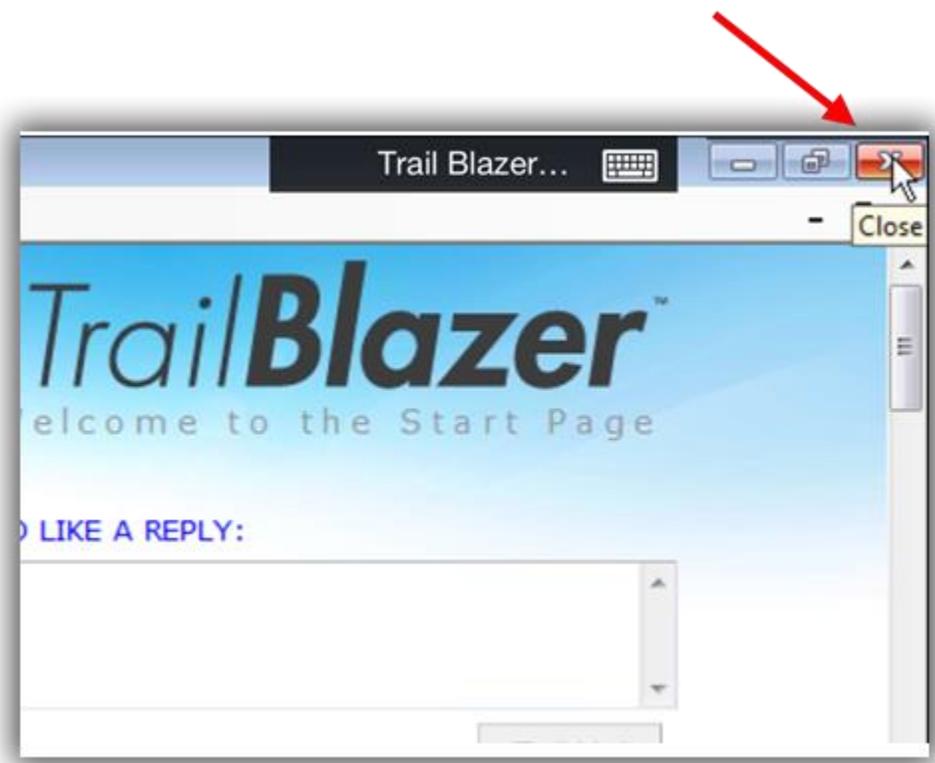

### Zoomed-in view of the Application Menu on an iPod touch.

When you're finished working you should close down the program, and log off of the remote connection (shown in a series of screenshots below).

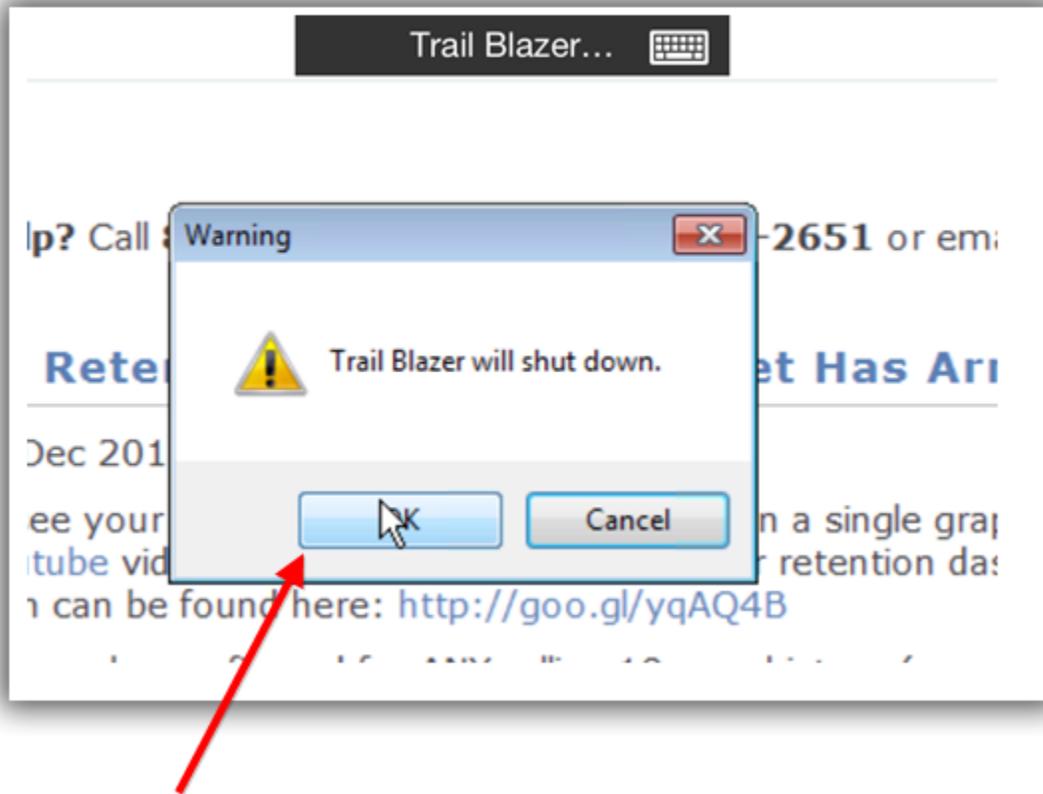

# How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

Img 1 – Click the red [x] in the upper-right of the program.

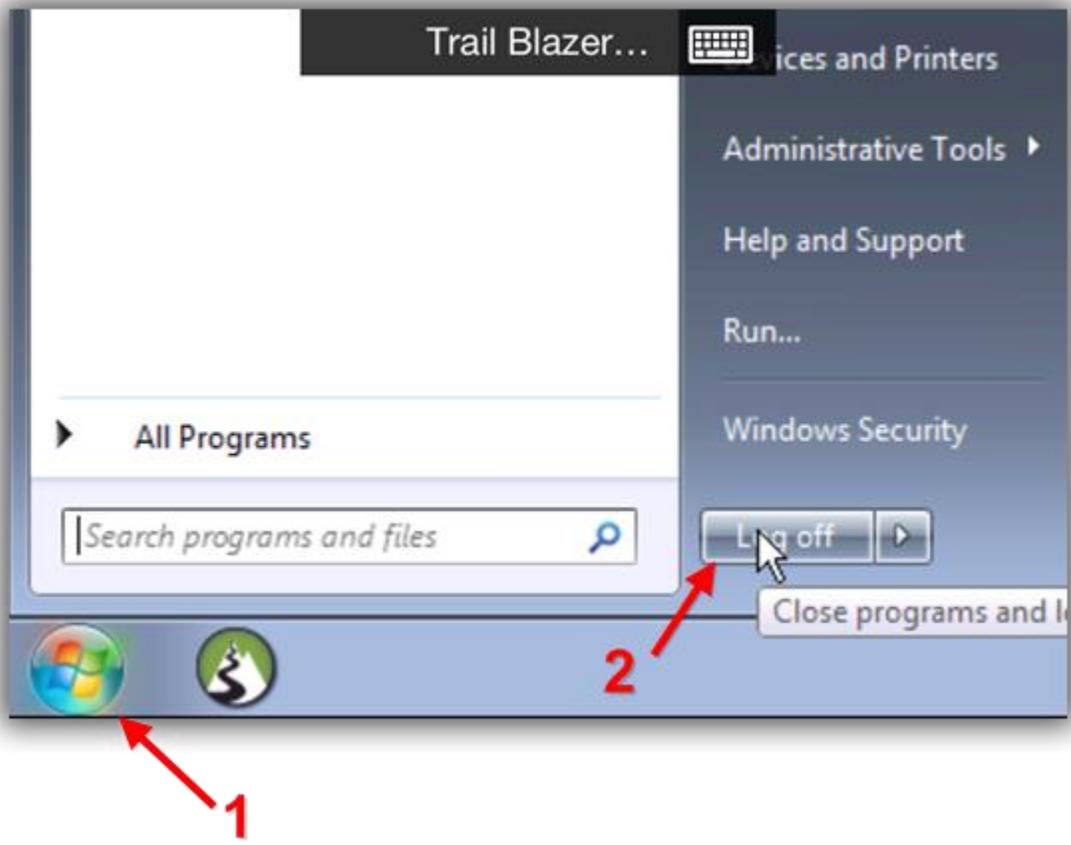

Img 2 – Click [OK] to close.

## How to Access Trail Blazer Remotely on an iDevice (iPod touch, iPad, or iPhone) Using the Free Microsoft Remote Desktop App

Navigate to the lower-left of the remote desktop, tap on the Windows Start Button, and **log off**.
